Anti-Hanna Workers Declare Changes Will Be Made Before Roll Call.

HAS NOT BEEN ABANDONED

Valess Some Members Go Back on Their Recorded Choice the Ohio Assembly Will Formally Elect Hanna This Noon.

Colembus, O., January 11.-The factional warfare against Senator Hanna is not over. It will have at least one more day of charges and counter charges. The fight has never been more bitter than tonight Senator Hanna received 73 votes today, majority of one in a total membership of 19 The senate voted 19 for McKisson and 17 for Hanna. The house vote stood: Hanra, 56; McKisson, 49; Wiley 1; Warner Lentz 1 and 1 absent.

The only absentee was Representative ramer, the democratic populist membe om Paulding county, who is seriously ick. His physician stated tonight he rould not possibly be in his seat tomorow. After the vote was recorded today in each branch of the legislature separately, a majority of a quorum or of those esent is all that is necessary in the oint balloting tomorrow, so that the seri-

might become an important factor. The scattering vote today for Lentz Wiley and Warner was cast by Represen-Wiley, Hazlett and Hess, all democrats. If Cramer had been present and all other democrats in line, McKisson's vote m the house would have been 53, or still three short of a majority in the branch of the legislature. With Hanna having a majority of 3 in the house, McKisson having a majority of two in the senate, the chair will announce tomorrow that there was no election, and that a joint ballot will be in order. As soon as the two bodies meet in joint convention at noon tomorrow, their respective journals of today will be read and the lieutenant governor will

make the usual official declaration. If all the senators and representatives are recorded on the joint ballot tomorrow as they were recorded on their respective ballots today. Senator Hanna will have a maferity of only one over all. But in the absence of Representative Cramer and by some of the democrats refusing to vote for Mayor McKisson, he is likely to have a larger majority of record on the journal of the joint convention. With the result apparently hanging on the change of only one vote, the contest has continued all night the same as it has been going on here other nights for the past two weeks.

The seven republicans who refused to vote for Senator Hanna today, have since signed statements that burn the bridges behind them. Senator Burke, Representatives Scott, Mason, Jones and Rutan say they Will vote for Hanna if the Otis charges are proven to be untrue. Representatives Otis and Bramley, however, simply signed a codicil to the statement of the other five dissenters, in which the concur in asking for an investigation, but state that they will not vote for Senator Hanna under any cir-While the bureaus of claims and of

As Representative Otis claims to have been offered a bribe at his home in Cincinnati, that case could be brought only before the grand jury of Hamilton county, and it would be necessary for Representative Otis to be there as a witness. Mr. Otis and others who would be wanted as witnesses in that case, are here tonight and it is not hought to be probable that Mr. Otis would norrow. If the vote is cast be absent tomorrow. If the vote is tomorrow as it was east today, the absence of Mr. Otis and others opposed to Hanna of Mr. Otis and others opposed to Hanna would have no effect on the result. There was talk of filibustering, but rne opposition could not break a joint quorum if all

their members should remain away.

The other case of alleged bribery con from the other side. Representative Snider, een county, who has been stopping at the Nell house during the past week, voted today for Hanna, for Boxwell for speaker t Monday a week, and attended the relast Monday a week, and attended the republican house caucus one week ago last Saturday. The opponents of Senator Hanna have been after him closely and constantly. It is alleged that Mr. Maddry came to the Neil house last week to see Mr. Snider and that he claimed to represent Kurtz and Bliss. Representative Snider had been anticipating the visit and a stenographer was concealed in the bathroom adjoining his apartments. It is charged that Mr. Snider was offered \$5,000 for his vote and that the red \$5,000 for his vote and that the ames of his backers were given by the

The stenographic report of the conversa-tion between Snider and Maddry is in the hands of the Hon. E. G. Rathbone, who was assistant postmaster general under Harrison, and is here as one of the man-agers for Hanna. It has been reported for several days that this case was before the stand jury of Franklin county, but when

closed its work this evening it icially stated that neither the case nor any other case connected e senatorial contest was before that

The opposition is charging the Hanna men tonight with voting down the motions and the resolutions today for an investigation of the bribery charges made by Representative Otis. The Hanna men say they will give the fullest consideration to this investigation at the proper time, but that the purpose of these charges now is to stampede the legislature on the balloting the purpose of these charges now is to stampede the legislature on the balloting for senator and that such a scheme cannot be carried through. Some of the Hanna men also state that at the proper time they will reorganize the house, as the vote of today showed that they had a majority of three over all in that body.

The workers for the opposition against The workers for the opposition against Hanna will not seep tonight, but will put in all the time until the joint ballot is taken tomorrow at noon. The chase for changes in the vote will be kept up even to the entrances to the statehouse tomor-

South McAlester, I. T., January 11 .- A elegram received here at 6:40 o'clock this evening by the train dispatcher of the Choctaw, Gulf and Oklahoma, reports a band of 150 Seminole Indians on the warpath, leaving behind it a trail of blood.

A telegram was sent by the ratiroad station agent at Earlsboro. The brief information conveyed was that the Seminoles were avenging the work of the mob of white men who burned two Seminole Indians at Blake on Friday last and that the infurlated Seminoles had already massacred twenty-five men, women and children.

The station agent gave the additional information that the band started from a point six miks south of Earlsboro with the avowed intention of setting fire to Tecumseh and killing all they met, that the Indians were reported to have changed their course and were at the time of the sending of the message headed toward

Earlsboro. The receipt of this startling information has created intense excitement in South McAlester. Federal Judges Townsend and Springer, who are in the city, are anxiously awaiting further news.

"Have you consulted the speaker?" asked

Mr. Quigg.

"No," replied Mr. Simpson. "He never consults me and I never consult him."

Mr. Allen, democrat, of Mississippi, entertained the house with one of his short,

bumorous speeches.

Mr. Balley, democrat, of Texas, leader of the minority, closed the debate with some remarks defending the attitude of the democrats. It was difficult, said he, to believe in the sincerity of the other side, when in one breath the republicans avowed their adherence to the law and the next demanded its practical destruction. If the law was good, he said, it ought to be extended; if not, it should be repealed. The democrats, he said, were ready to wipe it off the stat-

With the conclusion of Mr. Balley's remarks the time expired and the bill was reported to the house. It was then discovered that those who desired to vote to strike out the appropriation for the civil service commission had neglected to make the motion in committee of the whole. No vote, therefore, could be taken and the bill was passed without division.

RESIGNATION IS A GREAT SURPRISE Dr. Fleyd W. McRae Has Been on the Board of Health Siz Years-He Is Not Able To Devote physicians of the south, despite his small credit of years, has been easily one of the leading members of the board and has helped give that body the stamina and splendid standing it possesses. His resignation is not the result of impulse. It is known that last spring he was prepared with his resignation, but withheld it at the request of Mayor Collier.

Later in the year Dr. McRae found that his personal work kept him so closely becupled that he could not give to the bustness of the board that attention he believed this time, during the summer, that Atlanta frightened refugees from the fever-infected districts of New Orleans and Alabama Dr. McRae refused to press his renewed affairs and devoted his attention to putting safeguards about the city and the health of its citizens. It was when this work was just finished that Dr. McRae, his system

and worry, experienced a severe attack of matter, it is known positively that his resignation will soon be prepared and that it will be in the hands of Mayor Collier before the end of this month, perhaps sometime

run down by the stress of constant labor

this week. The resignation of Dr. McRae will take from the board one of its most valuable members. He has been with the board six years, having been elected first to fill the unexpired term of Dr. Baird. Although a young man, Dr. McRae has made phenomenal progress in his profession and in many branches of it he stands at the head of the list. He came to Atlanta twelve years ago and from the first day of his arrival here he has fought his way to the front by an unselfish devotion to his work, added to which were honesty and ability. He has filled a number of positions of honor in medical bodies and among other positions at present holds the place of proctor of

the Southern Medical college. The announcement that he will shortly resign will be a surprise to many, since in some fashion a rumor to the effect that he would be made president of the board has found place in one of the local papers. Senator Allen, of Nebraska, thought that General Meade's service justified such l'b-

quired the casting vote of the speaker to accomplish this. There are conflicting statements as to the situation in which the future conduct of the war against the civil service law is left. All the republican opponents of the law

agree that the fight is to be kept up, and it is positively stated by Mr. Pearson, re publican, of North Carolina, that assurances have been received from those in authority in the house that an opportunity will be given in the future for the consideration of a bill to modify the law. But from other sources the statement cannot be confirmed. The debate today was quite dull until

the closing hour, when Mr. Simpson enlivened it with reference to the Ohio senatorial election.

The principal speech of the day was made by Mr. Brosius, chairman of the civil service commission, who defended the law in a two hours' speech. Mr. Pearson, republican, of North Caro-

lina, asked how the statement that the civil service law was economical could be resenciled with the fact that the employees of the government had almost doubled since 1883. Mr. Brosius denied that this was true.

The advocates of the spoils system, he said, had repeated this statement until they believed it. Mr. Brosius said the powers of the civil service commission ers of the civil service commission were very limited. Sketch of the Handy Family and the Homestead and Church at Buckingham.

Berlin, Md., January 11 .- (Special.)-The body of Moses P. Handy arrived here this afternoon at 12:30 o'clock by way of the Pennsylvania railroad from Washington, Baltimore and Wilmington, and was met at the station and immediately conveyed to Buckingham cemetery for interment. Rev. Arthur Dougal, pastor of the Presbyterian church here, of which Major Handy's father was formerly pastor, had charge of the burial services, which were held at the grave. The pallbearers were Cordon A. Marshall, Robert J. Showell, Edward S. Furbush, David J. Adkins, Henry T. Bell and Sidney A. Bowen. The funeral was private, being attended only by the relatives of the deceased, but all plong the route there were gatherings of friends at all the stations to demonstrate the admiration and respect in which the deceased was held. In the funeral party which arrived today were the widow, Mrs. M. P. Handy, and son, William M. Handy, associate editor of The Chicago Times-Herald; Egbert G. Handy, a brother of the deceased, president of the Continental Publishing Compamy, of New York, and P. A. G. Handy who is connected with the United States

Major Handy was very fond of visiting here, always expressing the tenderest recoltions for the old friends and scenes of his boyhood, often expressing himself as having spent some of the pleasantest hours of his life here. He felt great attachment because his mother, whom he loved very fondly, passed her early days here at the place of her birth. HEIR TO FORTUNE IS MISSING

Chicago Lawyer in Savannah Looking for Robinson.

HE IS SOLE HEIR TO \$750,000

Nebedy Knows What Has Become of Fred Robinson, Who Lived in Savannah.

Savannah, Ga., January 11.-(Special.)-J. J. Risdon, a lawyer from Chicago, is in the city in search of a missing heir, Fred N. Robinson, who is known to have been in Savannah in July, 1879. Robinson's father, Curtis E. Robinson, left his wife and went to Chicago when the boy was young. Fred Robinson heard little of his father, who led a dissolute life in the Windy City, but who nevertheless amassed a fortune of

It is on account of his fortune that Robinson is being sought. He is the sole heir, if he is alive, the father having died in-

The heirs-at-law after him are afraid to touch the property until they find out whether he is alive or dead, and for that reason they have employed about seventeen lawyers, and have spent as many thousand dollars to make investigations. They are ready to spend \$20,000 more, Mr. Risdon says, to find out definitely what has Risdon says, to find out definitely what has become of Robinson. One cablegram they sent to Shanghai, China, in connection with the case cost them \$300. Mrs. James McBride, who keeps a sailor boarding house here, and has done so for the last thirty years, remembers Robinson and described him to Mr. Risdon, His record here will be looked up and Mr. Risdon hopes he may be able to trace him by it. He offers large rewards for any definite information concerning him.

ELLERBE REVIEWS THE PAST Message Does Not Take an Encouraging View of the Situation.

Columbia, S. C., January 11 .- (Special.)-The legislature met here today in annual session. In his annual message Governor Ellerbe handled the state's financial condition, declaring that the finances were in an unsatisfactory shape. He stated that there was a deficit of \$100,000 to be provided for but congratulated himself that he had passed the year without borrowing. The levy for state purposes, he declared, would be high. The general fund, he said, during the year had been augmented by \$92,000 received from the dispensary, \$8,000 less than last year.

The message showed that there are \$8.130.79 in the treasury to the credit of the direct tax fund. He made reference to the state hospital for the insane, and refering to the sinking fund, said the total value of the assets of the cumulative phosphate royalty sinking fund is \$253.007.56. Of this amount \$37,532 was loaned to counties at a rate of 5 per cent interest per annum. The sinking fund has permanently invested in state stocks \$35.728.56. JUDGESHIP IS WHAT THEY WANT

Colonel Tem Glenn and Judge W. R. Hammond Aspirants for the Bench.

AFTER A FEDERAL PLACE

Congressman Bartlett Thinks There Will Be an Appointment.

A CHANGE FAVORED BY ATTORNEYS GENERAL

To Serve.

Is Proposed To Have Another Circuit-There Are Many Willing

Washington, January 11 .- (Special.)-Atlanta has two full-fledged aspirants for a federal judgeship in Colonel Tom Glenn and Judge W. R. Hammond. They wait patiently on the circuit bench and have been moving to that end among their several republican friends and those supposed to have influence with the powers that control this administration. Colonel Glann was an open advocate of the election of McKinley and was conspicuous in the parade of the Atlanta McKinley Club at the inauguration. Judge Hammond bases his candidacy, so I am told, on his support of the

Palmer and Buckner ald society. The recommendation made by the attorney general in his annual report that there be appointed an additional judge for the fifth judicial circuit seems to have been instrumental in firing the ambition of these worthy gentlemen. Judge McKenna recommended that an additional judge be appointed for this circuit and for the sixth. No legislative action toward carrying out that recommendation has yet been taken, but efforts will be made on that line. Congressman Bartlett, of Georgia, has introduced in the house a bill providing for the appointment for the fifth circuit. This consists of Georgia, Florida, Alabama, Louislana, Mississippi and Texas. In speaking of the matter today Judge Bartlett said:

"Attorneys General Olney, Harmon and McKenna have all recommended an additional judge for our circuit, and certainly the volume of business makes it necessary. Judge Pardee is compelled to devote mos of his time to the circuit court of appeals and the result is that the district judges have to devote themselves largely to this business, although they are supposed to attend to it only in emergencies. I have in troduced the bill because the necessity for its enactment exists. I have heard nothing about possible candidates."

It is a fact, however, that Colonel Glenn and Judge Hammond are now active candidates. Probably because of their modesty they have for some time been working under cover and have impressed those whose assistance they have sought that they should not tell of their aspirations.

Beginning To Look Ahead. Some people up this way are just be ginning to open their eyes to a fact that has been apparent to everybody else since early in November a year ago, which is that the congressional elections of this year and the fight in 1900 are to be made on the same lines as the campaign of 1896 Following the lead of those newspapers which have been devoting their time to writing obituaries over the silver cause, many of the politicians have professed t believe that there was a chance of the democratic party repudiating the platform of the last campaign, and every effort has been made to create the impression that there were misunderstandings and jealousies among the democratic baders and between them and their allies which would result in forcing silver to the background. Of course nobody with eyes in his head has ever been able to see how these others could be so blind, and now that the eyes of the blind have been opened, no

the times, if nothing else, Senator Teller's speech is taken by most of these former doubters as the cause of their conversion to an understanding of the perfect union of purpose that exists between the different silver elements and the certainty that silver is to be the overshadowing issue of the immediate future

great surprise is expressed. Still the tran-

sition from darkness to light is worth

noting as one of the significant signs of

ag it was in the last campaign. Some of the able contributors to these newspapers are now engaged in writing on this subject as if they alone had discovered that the race this year and that of 1900 are to be fought on the money question-as if they had scooped all their rivals. It is all amusing and interesting, even if not very important. It shows that these papers are a little more than a year behind The Constitution, but that is about as close as they ever get to the pulse of

The Congressional Fights. There never has been any question of the ssues of the congressional campaigns of this year. If there had been, the make up of the democratic congressional committee would settle all doubt. The men who have been selected by their democratto brethren to membership on that committee—one from each state which has democratic representation-are without exception pronounced silver men. In almost every instance they are men who took an active, aggressive fight for the silver side in the contest within party ranks; in fact, they are what their doubtful brethren were wont to call the "ultra" silver men In almost all instances, too, the selections have been made from the younger element of the party. Georgia's member is Judge Maddox, of the seventh district, always an active silver man; Alabama has selected Congressman Stallings for her member, South Carolina has Congressman Talbert-both strong and pronounced silver men at all times and so it goes on

through the list. While the committee has not yet organized, there is no doubt of the identity of the new chairman. Senator Faulkner of West Virginia, was chairman in the last campaign, but until today it was supposed that he did not desire to go back on the committee, but in view of the talk of his lack of loyalty he will not only go on the committee, but will again offer for the chairmanship. There has been a disposition on the part of some of those who figured in that campaign to criticise Senator Faulkner and Secretary Lawrence Gardner for supposed lack of loyalty to silver in their management of committee affairs, but those familiar with the work of the com-mittee say there is absolutely no truth in this so far as Faulkner is concerned. As to Gardner-but that's another story.

Hinrichsen for Chairman.

was booked for the chairmanship. But now he will not even be on the com all his friends are outspoken in their in dignation at a petty effort on the part of some of his Illinois colleagues to humiliate him before the country. There are four democrats from Illinois. They did not hold formal caucus over the membership of agreed among them all that Hinrichsen should go on the committee and make a fight for the chairmanship. As soon as it was demonstrated that he would win, jealusy, because of the prominence it gave him, found lodgment in the hearts of Hunter and Campbell and they notified him that Jackson, Miss., January 11.-The Missis they would not be bound by their agreement, but demanded a caucus on the subject of the committee membership. Then they declined to take into their caucus old man Jehu Baker, the populist member from that state. The caucus was to have been held today, but was postponed until tomorrow. They expect by the votes of Hunter, Campbell and Baker to elect Hunter to membership on the committee.

Of course Hinrichsen explained the situation to his friends as soon as it developed and absolved them from all their promise to them. A number of them wanted to make him chairman whether he was a member of the committee or not, but he said he would not think of that unless he had his delegation at his back. Everybody is indignant at the methods employed by his jealous associates to humiliate him. The Illinois congressman first came be-

ore the notice of the country when, as chairman of the state committee, he took advanced ground in favor of a free-andunlimited-coinage-of-silver declaration in the national platform and was largely instrumental in carrying Illino's for silver. He possesses the two qualifications necessary to success in this position, sterling and unswerving democracy and splendid executive ability. His management of party affairs out in Illino's attracted general attention for its excellence, and when his associates began looking around for the man to take special care of their interests through this congressional committee, they naturally turned to Hinrichsen.

Everybody in Washington knows Buck, and everybody calls him by the appellation which preceded him here. In congress the big Illinoisan has taken an excellent stand, and if his popularity here is any indication of his popularity back home, he is likely to be a national figure for some years to

Favor Separate Organizations. There has been some talk among members of the committee about admitting to membership the fusionists from some of the states where members were elected by a general fusion of silver votes. There are several of these. They stand, however, on different footings. Some are democrats nominated as such and elected by usion votes; some were nominated as populists and elected by the aid of democratic votes, and still others were placed

It seems to be the general idea among the democratic leaders that while there should be and will be the freest cc-operation between the democrats and their allies, nothing should be done toward wiping out present party lines; in other words, that no populist should be given a place upon the populist committee; but that the two committees should act together whenever desirable for the success of the cause.

in nomination by a fusion convention.

cause. This wilf doubtless be the course pursued. For instance, Lewis of Washington was nominated as a democrat and was elected by a fusion of all the silver votes. He will go on the committee. Callahan of Oklahoma was nominated as a populist, and the democrats, seeing that there was danger of a republican victory, withdrew their candidate and voted for Callahan. Some of the members of the committee favor putting Callahan on it. I understand, but I do not believe that will be done.

No Chances Will Be Taken.

No Chances Will Be Taken. But whatever may be the decision individual cases, there will b plete harmony between all the silver forces and no chances of losing a member of the next house as the result of friction will be taken. Hinrichsen, with his broad knowledge of conditions in the shies of the middle west where the deflocratic gains are expected, will be a nost valuable addition to the committee, and the outlook for capturing the lower house of congress is most excellent. ser-Busch Plant.

St. Louis, Mo., January 11.—(Special.)—The employees of the budweiser department of the Anheuser-Busch Brewery Association were remembered with a special gift today. The reason for the celebration was the filling of the five-hundred-millionth bottle of budweiser. Five hundred million bottles of a single brand is a record that has been reached by no other brewery in the world, and the officers of that monster enterprise have cause to of that monster enterprise have cause to

MURDER OF BANK PRESIDENT. Riley Calls Largey to Cashier's Win-

dow and Shoots Him Down. Butte, Mont., January 11.—Patrick A. Largey, president of the State Savings bank, and one of the best known citizens of Butte, was killed in the bank this afternoon by Thomas J. Riley. Riley called to the cashier's window, where the two talked for five minutes. Suddenly Riley drew a pistol and shot through the window at Largey. The bullet struck the latter in the left arm and shattered the bone. Largey stooped down, and had he continued in that position he might have escaped with his life, as he was protected by the counter. However, he rose partly, and as he did so Riley fired a second shot, the bullet striking Largey in the forehead, and he fell on the floor dead.

The murderer escaped to the streets, where he was arrested. Threats of lynching caused his removal to Deer Lodge peniten-tlary. The murderer has but one leg. He lost the other in a powder house explosion

which cost fifty-six lives. Largey was manager of one of the com whose warehouses exploded and Riley was seeking redress for his injuries.

TAYLOR MAY GET SOME VOTES.

Nashville. Tenn., January 11.-(Special.)-The talk about Governor Taylor in con-nection with the senatorial race came up again tonight in a new shape when Representative Couts, of Robertson county, at the instigation of the Taylor or Bust contingent, gave out an interview in which he

tingent, gave out an interview in which he declared himself for Governor Taylor for senator and announced his intention of opening Taylor headquarters.

The announcement did not create a stir around the headquarters of either Senator Turley or Mr. McMilin, as both accepted in good faith the governor's statement that he is not a candidate and will not be.

In view of the governor's declaration that he is for Senator Turley, it is not thought that there will be many votes cast for Governor Taylor, though there are a few members, it is understood, who will vote for him anyhow.

Mississippi Legislature Ballots for United States Senator.

IMPORTANT QUESTION RAISED

Constitution of the State Seems Ambiguous of the Date for the Voting.

sippi legislature made a curious and awk-ward blunder today in balloting for a United States senator for the unexpired term made vacant by the death of Senator J. Z. George. Exactly at noon both houses, by septrate formal ballot, elected Hon. H. D. Money, who already holds the appointment of Gov-

ernor McLaurin, as George's successor. Late this afternoon the question was raised as to the legality of this action and it appears that either this legislature has strangely George and Walthall in 1892, and that of Senator Money, in 1896, were illegal. Under the constitution of Mississippi the legislameets on the "first Tuesday after the first Monday in January," and under sec tion 14 of the revised statutes of the United legislature must begin on "the second Tueslay after the meeting and organization

The question therefore arises in Mississippl as to what is the "second Tuesday after the meeting and organization" of the day of organization be counted.

In 1892, when George and Walthall were elected, the legislature convened on Tuesday, January 5th, and on Tuesday, Janury 19th, both houses balloted separate ly and on Wednesday, the 20th, jointly elected the senators. This precedent was also followed in 1896, when Senator Money was elected for the full term to Mr. George. The legislature of 1896 met on January 7th and the houses did not take a ballot until January 21st. The ballot of oday will be ignored and another election had on Tuesday next.

The test vote resulted 56 ayes 52 nays, and the house refused to dispense with the call and do any balloting until Cramer could be brought in.

Representative Kenny had read the charges offering to bribe Representative John C. Otis, of Hamilton county. He offered a resolution that a committee of five be appointed at once to investigate these specific charges and any other charges of bribery affecting any member of the house.

or persons in connection with the election of United States senator.

The votes were on strict party lines with the exception of Speaker Mason, of Cuyahoga; Representatives Bramley, of Cuyahoga; Jones, of Stark; Scott, of Fulton, and Otis, of Hamilton, who voted with the 47 democratic members.

The name of Marcus A. Hanna was presented by Representative Leland, of Noyle, and seconded by T. R. Smith, of Delaware. The name of Mayor Robert E. McKisson, of Cleveland, was presented by Representative Bramley.

Representative Droste announced that he had intended to present the name of Jeptha Garrard, but he would not do so at the request of that gentleman.

The cheering as the names of Griffith, of Union; Manuel, of Montgomery; Joyce, of Guernsey; Droste, Kemper and Lane, of Hamilton, were cast for Hanna were tremendous.

In the house the ballot for senator resulted as follows:

For McKisson—Adams, Atkins, Agler, Bartlow, Bolin, Booth, Bower, Bracken, Bramley, Cline, Connolly, Cox, Deran, Gayman, Goard, Halden, Hater, Heyde, Hull, Hunter, Jones, Kenney, Kempel, Lamb, Ludwick, MacBroom, McCauley, McGlinchef, Magee, Melber, Monter. Wiley I, Warner I, Lintz I.

When the result of the ballot in the house was announced there was considerable stir on the democratic side. Speaker Mason announced that Marcus A. Hanna having received a majority of the votes of the house was the choice of that body for the short term.

The ballot was then taken for the long term, and it resulted the same; and its announcement was greeted with another long and loud demonstration. On both ballots Representative Cramer was absent, and there were thus only 108 cast as follows: Hanna 56, McKisson 49, Wiley 1, Warner 1, Lentz 1, absent 1.

At 12:15 the house adjourned and the hall was used for a jollification meeting with the crowd singing Praise God from Whom All Blessings Flow."

In the Senate.

In the Senate.

In the Senate.

The senate chamber was crowded to its limit when at 11 o'clock the first move in the great senatorial contest was made. When the lieutenant governor rapped for order and announced that the balloting for a United States senator was now under consideration perfect quist immediately reigned. Not a sound was heard.

It was just 11 o'clock when Senator Sullivan arose to nominate Senator Hanna. During the delivery of the address it was a somewhat remarkable scene. The senators sat perfectly quiet, facing the speaker. Crowded into the hall were several hundred people taking up every possible foot of space and yet not a sound could be heard save the words of the speaking senator.

The vote in the senate for the long term tood 15 for McKisson and 17 for Hanna, he same as on the ballut for the short term. With the 17 in the senate and 55 in the louse, Hanna had just the requisite 73 rotes for his election with all present, but n the absence of Representative Cramer, lemograt. Hanna has one to spare.
The vote in the senate resulted as folows:

For Hanna—Alexander, Blake, Cable, Carpenter, Crandall, Dodge, Garfield, Lutz, May, Plummer, Riley, Sheppard, Sullivan, Voight, Wightman, Williams, Wolcott, Total, 17.

Total, 17.

A remarkable scene took place in the senate chamber when the vote from the house was announced. The republican senators, inspired by the encouraging news, stood on their chairs and upon the floor and shouted themselves hoarse with calls for Hanna and victory. Nothing like it was ever seen in an Ohio senate chamber.

HE MAY HAVE SAVED HANNA. Ohic's Senior Senator and the President Has Long Conference.

Washington, January 11.-(Special.)-It may be that it was Foraker's hand that saved Hanna's neck from the halter at last. The story is that he did it through no love for Hanna, but because he secured from the president himself the assurance he has been after all along, that he should have full recognition as senior senator from Ohio, and was to be consulted in all things hearing on Ohio's patronage a He got that assurance this morning.

For an hour or more he was closeted with

McKinley, and all other callers were kept McKinley sent for Foraker, believing that he and he alone could save the man in whose fate the whole administration was so deeply interested. Hanna would ask nothing of Foraker, but it is believed that this conference was Hanna's own sugges-tion. He was willing to have the president make any and every promise in order to save himself. Nobody knows what passed between the two men but the men them-

When Foraker came out there was a smile of triumph on his face. He would only say that a satisfactory solution would be reached. How it was reached, according to his ideas, is told in the story from Col-

The republicans of Washington are doing a great deal of jubilating over the news from Ohio. Hanna has had the sympathy of even his enemies in this fight, for, from a standpoint of party ethics, he was regarded as having won his election. Many democrats who hoped for his defeat have also felt that, having secured the party ndorsement, he was entitled to the republican members of the legislature.

Everybody is speculating on where this

leaves Bushnell and Kurtz. The general verdict is that it means that neither can ever cut a figure in republican politics in Ohio again. Certainly this is the case with Bushnell. Kurtz is too foxy a man and too popular to stay down, and perhaps Foraker spoke for him as well as for himself.

It looks a little queer that John McLean's fusion legislators from Cincinnati voted al-

ed out to be against Hanna first, last and There is some little satisfaction in saying

"I told you so." It goes in this case. From the first, my faith in the potency of Hanna methods in Ohio politics has never shaken. Ike Hill sized it up when he declared: The only reason they didn't buy demo-

crats was that there were others who were easier to bet. FORAKER GLAD IT IS OVER.

Does Not Believe the Joint Ballot Will Change the Situation. Washington, January 11.-When asked his

opinion tonight on the subject of the first day's balloting in the Ohio senatorial sit-uation Senator Foraker said: "It seems to me that Ohio has spoken for herself and that there is not much else to On being assured that there was still

interest expressed in his personal opinion, he replied: "The centest has been extraordinary in "The centest has been extraordinary in many respects and all who have the good of the party at heart must be glad it is ended. The feeling that has been aroused has been very bitter, but I trust that natural conditions will soon obtain and that a united party will be the result."

As to the prospect of the televisible the As to the prospect of the joint ballot the

"I know nothing of today's proceedings beyond the newspaper reports, but I don't see any reason to think the result tomor-row will be different from that of today. I am glad it is over so soon. A protracted deadlock, as in the Kentucky case, would have been deplorable."

Colonel Thomas F. Barr, the judge advocate, has had but three days in which to prepare his case, and he is, therefore, still busy upon it, but says he anticipates no difficulty in

Chance Meeting with Captain Carter. An interesting incident was the meeting last night of Captain Carter and Colonel Barr. Captain Carter introduced himself, making an excuse for not having called on Colonel Barr.

"But I should have called on you," Colonel Barr replied. "I intended to do so. I always like to meet the accused before the Tomorrow's proceedings will consist sim

ply of the organization of the court and the reading of the charges, which will cccupy perhaps two hours. The principal charge, it may be said, consists not in the claim that the work is a failure, or that it was improperly done, but that materials cheaper than those called for in the specieations were used, costing the government much more money than would have been the case had the cheaper materials indicated and called for in the specifications

Surprises Promised in the Trial. Captain C. E. Gillette, who preferred the charges, seems confident of his case. He is reported as having said or intimated that beside the charges preferred, "there is more behind." In other words, it is said, more may be brought out than present indications give an idea of. Captain Carter is confident of victory. He greets all of his friends with a pleasant smile and a hearty hand-shake, and feels that he will easily break down the testimony that will be put up in support of the government's case. The charges have all been printed, but will not be given out until they have been read

DEATH OF DR. HARDEN. Well-Known Georgian Dies at His

Home in Savannah. Savannah, Ga., January 11 .- (Special.) Judge William D. Harden died tonight at 9:30 o'clock from Bright's disease, from which he had been suffering for some time past. No arrangements have yet been made for the funeral. Judge Harden was born in Athens, Ga., in 1837, but had lived in Savannah since he was a child. He was a graduate of Princeton, and practiced law after leaving college in 1857. He entered the army with the Chatham artillery and rose to be a lieutenant colonel with Stewart's corps, his rank at the close of th war. Judge Harden took up the practice of law after the war and in 1878 was appointed the Sons of the American Revolution, a member of the Society of the Cincinnati and president of the Confederate Veterans' Association here. He took deep interest in many other well-known organizations and was a public spirited citizen. His loss will be deeply felt.

SAVED FROM DEATH BY FIRE Narrow Escape of the Family of Judge Mitchell.

Blackshear, Ga., January 11 .- (Special.) About 1:30 o'clock this morning as Revs. Gillen and Pierce, colored preachers, were returning from a meeting in the country they discovered that the residence of Judge Robert G. Mitchell, Jr., was on fire and immediately sounded the alarm.

They hastened to the burning building and made desperate efforts to awaken the is deplorably weak and insufficient, being inmates of the house, meanwhile crying "fire" and calling for assistance. Failing to awaken any one after repeated efforts, the prisonment for the trio, is imminent. Just two preachers concluded that the house was so sure as anything milder than the death not occupied, and at once smashed in a window in order to save as much as possible from the burning building. The crash of the window and the influx of fresh air aroused the sleeping inmates, who wou undoubtedly have been suffocated in a short | as willing to let the trial proceed, but if juswhile, as the room was rapidly filling with smoke. but beyond these all was lost, Unfortunately there was no insurance. Opinion is divided as to the cause of the fire, but the evidence seems to point pret-ty conclusively to incenliary origin. Judge Mitchell presides over the county court and has been fearless in dispensing justice, and it is thought some of those who have had fines imposed may have sought satisfaction in the fire of last night. Judge Mitchell was severely burned about the face and hands in his efforts to save his

Vashington, January 11.—(Special.)—Walter Johnson and the other republican leaders are after the official head of Captain Jim Wright as special agent of the secret service at Atlanta. The Night March of the Dawson Guards to Morgan.

INCIDENTS ALONG THE WAY

Prisoners Delivered Into the Hands of Judge Spence.

PEOPLE WILL PATIENTLY AWAIT THE RESULT

Determined That Men on Trial Shall Not Escape-Evidence Is Weak, Hence Worst May Come.

Dawson, Ga., January 11.-(Special.)-An ominous quiet prevails here after the exciting scenes last night and this morning. This morning early the Dawson Guards escorting the three charged with the murder of Julian King, and news from Morgan, where the trial is being held, is awaited with anxiety.

The Weird March. The men left the town at 3:40 this morning, in their midst being Fisher, Handy and Bailey, the three prisoners, and Sheriff Davis, of Calhoun county. The march through the still woods was depressing and the possibility that at any moment they might be attacked by a vengeful mob of King's friends kept the militia constantly on the lookout. Guards were thrown out to judge of the city court of Savannah, which the rear and front to guard against surposition he held until 1892. He was an enthusiastic member of the Georgia society of men traversed the twenty-two miles between here and Morgan. The uncertain flashes of the moolight gave the inexperienced volunteers one or two starts, and several times the escort prepared itself to meet a surprise party, but everything passed along smoothly and Morgan was reached about 7:30 o'clock.

The Court Takes Charge. The troops rested on their arms until 10 o'clock, when Judge Spence arrived and ourt opened. The conduct of the strangers at Dawson last night is easily explained now, as the same men, backed up by others, are at Morgan, and make up the largest part of the audience. They evidently wanted to find out what power they would have to oppose should the court disappoint them and save the accused. The greatest danger exists just at present. The evidence altogether circumstantial, and an acquittal. or at least an insignificant term of imsentence is passed on the negroes a lynching is looked for.

Will Await the Verdict. The friends of King express themselve will undoubtedly establish a court of their own, and make short shrift of the abject wretches who are crouching and starting at every unusual noise, or vehemently declaring their innocence in the brief reesses which the court takes.

The trial may end with tonight's session and it may drag out through tomerrow but when the probable verdict of acquittal comes, the soldiers will load their weapons fix their bayonets and make a rush with the three prisoners for a stronghold that lends some hope of enabling them to successfully resist the assault of the mob, which is sure to follow

Captain Clarke Determined.

Captain Clarke expressed himself tonigh as determined to do his duty at all hazards, and his men are made of the same stuff. None of them have ever smelt powder before, but they are a determined lot, and there will be a bloody battle before the mob has its will with the prisoners. Late advices from Morgan say that an acquittal is almost inevitable, and that in anticipation of violence the military is taking every pre-

Taken to Augusta for Safe Keeping, Augusta, Ga., January 11.—(Special.)— Sheriff John Callaway, from Washington, Ga., brought a prisoner, Sim Thomas, to Augusta today for safe keeping. Thomas killed a white man, Alex McCov. last De cember in a quarrel about a negro woman. He was tried on Monday and sentenced to life imprisonment. In the opinion of the people, or at least a part of them, he should have been sentenced to hang, and there were rumors current that an attempt would be made to dispose of him summar ly. To prevent such a possibility the negro was brought to Augusta today, where he will be kept in safety until sent to the penitentiary to enter upon his life sentence.

Interesting Experience of an Indianapolis Gentlemen.

No trouble is more common or more mis understood than nervous dyspepsia. People having it think that their nerves are to blame and are surprised that they are not cured by nerve medicine and spring remedies: the real seat of the mischief is lost sight of; the stomach is the organ to be looked after.

pain whatever in the stomach, nor perhaps any of the usual symptoms of stomach weakness. Nervous dyspepsia shows itself not in the stomach so much as in nearly every other organ; in some cases the heart palpitates and is irregular; in others the kidneys are affected; in others the bowel are constipated, with headaches; still others are troubled with loss of flesh and appe tite, with accumulation of gas, sour risings and heartburn.

Mr. A. W. Sharper, of No. 61 Prospec street, Indianapolis, Ind., writes as follows:
"A motive of pure gratitude prompts me to write these few lines regarding the new and valuable medicine, Stuart's Dyspepsia Tab-lets. I have been a sufferer from nervous dyspepsia for the last four years; have used various patent medicines and other remedies without any favorable result. They sometimes gave temporary relief until the effects of the medicine wore off. I attributed this to my sedentary habits, being a brokkeeper with little physical exercise but I am glad to state that the tablets hav overcome all these obstacles, for I have gained in flesh, sleep better and am better in every way. The above is written not for overy way. The specifully sports and actual facts. Respectfully yours, A. W. Sharper.'

HOW THE WHOLE FAMILY CAN DRESS WELL AT SMALL COST.

No Need of Looking Shabby Even Though Times Are Hard-Easy To Make Old Gowns and Suits Look Like New When One Knows How.

It is astonishing how much can be made from seemingly useless garments by the woman who knows how. The old faded gown that is out of style can be readily dyed with Diamond Dyes to a fashionable color and then made over so that it will look almost like new. Suits for the boys can be made from old ones discarded by the father, and a bath in Diamond Dyes will make them look like new. Dresses and cloaks for the little girls can be made with but little trouble and scarcely any expense from cast-off garments of the older folks, and when the color in changed with Diamond Dyes, the made-overs will look as though they were fresh from the dress-

Diamond Dyes are made especially for ome use, and the plain directions on each package make it impossible for even the most inexperienced to have poor luck with these dyes. They color anything, from ribbons, feathers and scarfs to heavy coats and gowns, and make perfectly non-fading colors, even handsomer than those mad by the professional dyer.

Macon, Ga., January II.—The chamber of commerce met this afternoon for the annual election of officers. Many names have been suggested for the presidency and considerable interest has been aroused in the matter. The question was settled by the unanimous re-election of R. Morrison Rogers, who has ably discharged the duties of the office during the past few years. Frank Mallary, first vice president, George A. Smith, second vice president. Directors, Henry Horne, S. R. Jaques, W. B. Sparks, T. J. Carling, A. E. Chappell, N. M. Block, Frank Benson, John C. Holmes, Azel R. Freeman.

Frank Benson, John C. Holmes, Azel R. Freeman.

This is one of the best board of directors the chamber has ever had. The board of directors will elect the secretary. Dave Hill is the present secretary. George Ketchum is a candidate against him. At the previous meeting of the chamber a committee was appointed to invite Major J. F. Hanson to go as a delegate to the monetary conference to be held this year at Indianapolis. He could not accept on account of business engagements. The matter came up this afternoon and Robert E. Park said:

"Ain't this Indianapolis affair a goldbug convention? Macon don't want to be represented there. We don't wish to send anybody to that convention?"

Macon, Ga., January II.—(Special.)—A large audience assembled at the courthouse tonight to hear the address of President Mahon, of the International Association of Street Railway Employees. He was introduced by James Davidson. President Mahon is a very good speaker. He spoke in strong voice and very fluently. His address was a plea for labor to unite for its advancement, upbuilding and protection. Eugene Debs, who spoke last night on social democracy, followed President Mahon in a short talk.

Vaughn, a chain-gang guard, and Mike Murray, a lot in-spector. The two last had lost their places in the elections of Saturday night, in which Councilman Lougee was a participant on the Kerr side, and it was a charge of double deailing on the part of Councilman Louges that brought about the fight during the recess in council while waiting for Chief Roulette. The charge against all four was disorderly conduct. Councilman Lougee pleaded guilty. He said he had learned since that Collins was drinking on Saturday night and that this was no doubt the reason of the disturbance, which otherwise would probably not have occurred. I eadmitted he had said he was perhaps as much to blame as Mr. Collins. Various citizens present testified as to the details of the affair, and after the testimony was all in Recorder Baxter dismissed the case against Councilman Lougee and Mr. Vaughn and fined Jallor Collins \$25 and Murray \$10. The resolution was referred to the committee on resolutions and ordinances, which reported at tonight's meeting, expressing themselves in hearty sympathy with the resolution, but as the question involved the tax levy, assessments, etc., due consideration must be had, and the suburbs must present some definite plan for annexation as a basis on which incorporation into Macon can proceed. SIR MORRELL MACKENZIE, M. D.,

The Celebrated English Specialist,

Who was called upon as an expert to prolong the life of the late Emperor of Germany—in which he succeeded—has this to say, as a defender of SPECIALISM, in a brilliant contribution to one of the leading London Reviews: "Specialism is a deliberate concentration of a man's power on a single object. The opposition to special-ism so frequently manifested by the profession of medicine is usually born of a desire to revenge itself

A Queer Situation.

Senator Chandler has not heretofore made a reputation as a fatuous person. but he bids fair to achieve that stripe of notoriety at no distant day. It seems that the senator is in favor of the restoration of silver and at the same time wants to stay in the republican party. That is to say, his convictions run count. er to his political interests. He cannot, in the state of New Hampshire, approve the restoration of silver in the only way it can be restored, without ceasing to be a republican, and then he would be compelled to retire from office.

Consequently, Senator Chandler, in order to maintain a connecting link between his convictions and his political interests, is endeavoring to breathe life into a scheme that never was alive. He pretends to believe that there is still some hope for international bimetallism. He has been saying that in the and has been writing letters about it.

The latest accounts say that he ha seen the amiable Mr. McKinley, and has induced that great maxim-maker to say that there is "some hope" for international bimetallism, and that it is his intention to "send his envoys to Europe again" as soon as the conditions in India are more favorable.

We had no idea that so astute a person as Mr. Chandler would even pretend to be impressed by such poppy cock as that which he gives out as coming from Mr. McKinley; but he cackles over it as gleefully as if international bimetallism were already an accomplished fact instead of a ghost that has We had supposed that the senator was familiar with the fact that the "peculiar conditions" in India are nothing more than the arrangements that are now going forward to place that country permanently under the gold standard; that there is still to be another turn of the screw, the effects of which this country will feel. Prices here are still too high to suit the savage greed of the money power.

But, at any rate, Senator Chandler's report of his interview shows one thing very clearly, and that is that the poor old ghost of international bimetallism is to be trotted out to do duty in the congressional campaign. While Mr. Gage and the administration are employing their utmost efforts to "commit country more thoroughly to the gold standard," it is to be given out from the white house, privately, that there is still hope for international bimetallism. " The old stalking-horse is to be dragged out. Notwithstanding that its head and tail are gone and half the weatherboarding fallen from its sides, it is to be rolled out and dragged up and down the stage.

This seems to satisfy Mr. Chandler and Mr. Wolcott is to be placated with two more trips to Europe if necessary. We do not believe the New Hampshire senator is fool enough to believe what he says, and we are sure that the administration is too far committed to the gold standard to fool the people.

But even the pretence makes a beautiful spectacle-Mr. Gage trying to "comcountry more thoroughly to the gold standard," and Mr. McKinley trying to get rid of it.

The republican party is very rapidly approaching the end of its tether.

The Upshot of It.

The fact that the workingmen of New England are preparing to strike against the most extraordinary and widespread reduction of wages that has ever been known (especially in a time of republican "prosperity") is not at all surpris-

But every intelligent person knows that the strike is foredoomed to failure: The effects of the gold standard have been of such a character that the mill owners are compelled to recoup themselves from the meager earnings of their operatives or put up their shutters. They will probably welcome the strike as a measure of relief, and take advantage of the recess to discuss further reductions when the operatives return to

Three courses are open to the mill owners-the first is to continue to reduce wages, the second is to close their mills and the third is to form a trust. How truly has it been said that reduction of wages under the gold standard is but the preparation for a trust! We have seen this process going on more rapidly since McKinley's election than at any other period of our history.

Said Senator Teller in his speech last Friday: \ "I knew then the great stake which they (the men who compose for the control of the great industries of the Ohio legislature. With only one this country. It is for the control of the great avenues of commerce and trade.

In formal indorsement of Hannaism by the Ohio legislature. With only one vote standing between Hanna and the senate, it would have been amazing if, arrived from New York, twenty-five days over due, with most of her sails carried away.

It is for the control of, and that they nay take toll upon, all the energies and the skill of all our labor everywhere When corporate capital and experience fail to make dividends out of their plants, they reduce wages. When this fails, they consider the advisability of forming a trust or combination in order to control production and prices. Now, to do this, some plants must be bought

and closed. This takes money, and the gold trust stands ready with the money if it can have a finger in the pie. They do not call it putting a finger in the pie They describe it as "feenawncing"

This is the process that has been and is going on before our eyes. trust is getting control-as Mr. Teller says-of all the great industries, and all the great avenues of commerce and trade in this country. During the post ten months more than fifty stupendous trusts and combines have been formed in one line or another of production. This is what is called republican prosperity, and it will be the upshot of the present condition of affairs in the New England mills. We shall shortly hear no doubt, of a great cotton mill trust "feenawnced" by the gold syndicate. Mills will be closed down, and operatives thrown out of work until production is brought to the level of the broken back

of demand. This is genuine republican prosperity

Who Are the Greatest?

Our national lawmakers seem to be in something of a quandary over the task of changing the nomenclature of the streets of Washington.

Twenty-six of these streets, radiating from the national capitol like the spokes of a wagon wheel, bear the names of the different letters of the alphabet. As this system of designating the streets has come down from the early days of the government, there has been little disposition to change it until the present time.

At length, in order to avoid confusion it has been decided to substitute instead of these letters the names of twentysix Americans, the initial letter of each name to coincide with the letter of each street for which it is substituted. The members of congress who have the matter in charge are deeply concerned in regard to it, as they realize that unless the greatest care is taken in naming the streets there is apt to be developed more or less sectional criticism.

Congressman Dalzell, of Pennsylvania who is one of the members of congress entrusted with the difficult task of naming the streets, has prepared the follow ing list, in which he endeavors to metout equal justice between the sections: Adams, Bancroft, Clay, Decatur, Emerson, Franklin, Grant, Hamilton, Irving Kane, Lincoln, Marshall, Newcomb, Oglethorpe, Perry, Quincy, Randolph Stanton, Taylor, Union, Van Buren and

Congressman McMillan, of Tennessee, has prepared two separate lists, the first of which reads as follows: Buchanan, Cleveland, Dallas, Ellsworth Fillmore, Grant, Harrison, Jefferson King, Lincoln, Madison, Nelson, Otis, Polk, Quincy, Rutledge, Sherman, Tyler, Upshaw. Van Buren and Washington The second list prepared by Congressman McMillan reads as follows: thur, Bell, Clinton, Dearborn, Everett, Franklin, Garfield, Hayes, Jackson, Knox, Lafayette, Monroe, Nicholson, Osgood, Pierce, Quitman, Rush, Story, Tay-

lor, Underwood, Van Ness and Wolcott There is quite a divergence between the names contained in these several lists, and our national lawmakers will have their hands full in coming to any thing like a satisfactory decision as to who are the great Americans to be honored.

Although it is too early to obtain any correct figures bearing upon the extent of our foreign trade relations during the past year, some idea of the magnitude of our foreign export trade may be derived from recent figures sent out by the American bureau of statistics, covering the record for the first eleven months of the year. According to these figures our foreign

export trade up to December 1, 1897, aggregated in value \$956,675,874. This amount is only slightly in excess of the figures for the corresponding months of the year preceding, but it serves to show the widespread character of the demand for our American products. Of the total exports for the eleven months ending December 1, 1897, it appears that most of them were of agricultural products, aggregating in value \$635,782,489. With respect to other products exported, the showing is as follows: Manufactured products, \$256,256,812; mineral products, \$18,233,839; forestry products, \$37,868,468; fishery products, \$5,223,838, and miscellaneous products, \$3,310,428. As to the destination of these exports most of them found their way directly into the European market; others crossed over the Pacific into China. Japan, Australia and other eastern countries. From the diversity of these ex ports, as well as from their total valuation, it is evident that the resources of this country furnish the basis for extensive foreign trade relations, and that as time progresses the world will become much more liberal in its patronage of our American market.

It Will Surprise Nobody.

Mark Hanna will, in the joint session of the Ohio legislature today, be re elected to the United States senate. If the vote of the two houses in separate session yesterday can be taken as an indication of today's vote, and there will probably be no change, he will have a majority of only one vote-a close pull, it is true, but the result is not sur

Elated by the certainty of success as the result of yesterday's balloting, Mr. Hanna said:

It is not so much a matter of personality as it is a question of keeping the pledges and upholding the integrity of the party and of giving heed to the will of the people If the republican party is prepared to accept Mr. Hanna as a model-and this is his modest pose-well and good. The democrats are scarcely less suc cessful in Mr. Hanna's victory than they would have been in his defeat. republicans will be held to accountability for Hanna and Hannaism, and the day

of judgment is near at hand. In the senate he will be a shining campaign argument for the democrats, and looking at the result from a partisan standpoint, his re-election will be made to serve an admirable purpose for

the opposing party. Never in the history of American pol itics has there been another such campaign as that which will end today in JUST FROM GEORGIA.

Dr. John Hall, of New York, who has occupied the pulpit of the Fifth Avenue Presbyterian church for thirty years past, formally tendered his resignation as pastor on last Sunday. As Dr. Hall has long been recognized as one of the foremost of American Presbyterians, the announcement of his reservation. recognized as one of the foremost of American Presbyterians, the announcement of his resignation carries with it unusual interest. His reason for resigning the active duties of his pastorate is that his growing infirmities will not permit him to continue in the laborious work in which he has been so long engaged. He feels that younger shoulders should now be entrusted with the burden and is accordingly anxious to see some one else installed in the pulpit. Of course, there will be no lack of candidates for the position stalled in the pulpit. Of course, there will be no lack of candidates for the position, as the congregation is one of the wealthiest in America and pays its pastor \$15,000 yearly; but the congregation is not apt to proceed hastily in the matter of choosing Dr. Hall's successor. It will search the world over until it finds some one who suits it. Dr. John Hall was born in the north of Ireland on July 31, 1829, and is of Scotch-Irlsh blood. He was educated at Belfast college and licensed to preach in 1849. While preaching in Dublin, he received a call from the Fifth Avenue Presbyterian church of New York and since that time he has continued to occupy the pulpit of that church. In all likelihood Dr. Hall will be made emeritus pastor of the church that church. In all likelihood Dr. Hall will be made emeritus pastor of the church after his resignation takes effect. He is universally beloved by his congregation, and in spite of his infirmities, is still a power in the ranks of Presbyterianism. The wealth represented in the membership of the Fifth Avenue Presbyterian church is estimated at \$400,000,000.

CANDLER AND TERRELL BURN THEIR BRIDGES BEHIND THEM

Aspiring candidates for the offices of secretary of state and attorney general yesterday did what other industrious, persistent and curious callers at the capitol have not been able to dc before-they obtained from Colonel Candler and from Mr. Terrell the plain statement that both intend to run for governor. They did it by innocently announcing their own candidacy for the two offices in question, but expressing a delicacy about making a fight until they were assured that there was something to fight for. In other words, they wanted to know for certain that vacancies were to be created before they took a final plunge. Colonel Candler frankly told his callers that he was not a candidate for re-election as secretary of state, and Mr. Terrell, though more guarded in his utterance, conveyed the same impression as to the attorney generalship The two gentlemen who accomplished all this are Senator Phil Cook and Representative Hewle't A. Hall. Senator Cook

walked into the office of the secretary of state at the capitol early in the morning, shook hands with Colonel Candler, drew up a chair, placed his black slouch hat or the desk, and said with characteristic can-"Colonel, my friends want me to run for secretary of state, but I don't want to do

it if you intend to be a candidate for reelection. I have come up here to find out if your office will be vacant after the Colonel Candler stroked his whiskers

smiled, and leaned back in his chair. "Phil." he said. "I'd be the last man to stand in your way for this place, if you want it. Just say the word and I'll get out." "But I don't want you to get out on my

account. And I don't want to run against you. I only want to know if there is going to be a vacancy." The colonel shook hands with his caller again, thanked him for this expression of

his good will and said: "Go ahead and run. There is going be a vacancy."

A little later in the day Senator Cook after consulting with some of his other friends, prepared and made public the following statement, which he addressed to the democrats of Georgia:

"The generally accepted fact that the present incumbent of the office of secretary of state will not be a candidate for re-election, coupled with the generous assurance of many friends that a large portion, at least, of the democratic party of the state desires me to stand for the office, leads me to make this formal declaration of my candidacy. I address it to the democrats of the state at this early date in order that they may give the matter such time and attention as they see fit. "I am a democrat, and my only platform is the platform of my party, adopted at the Chicago convention of 1896. While appreciating the fact that the secretary of state of Georgia has but little to do with the question of the currency, and still less to do with the tariff, I feel it to be the plain duty of every democrat in times like these, whether or not he aspires to public office, to make an open declaration of the faith that is in him.

"I believe in rigid economy in the administration of all the departments of the state government, and I pledge myself to do all in my power, if elected, to aid in the reduction of the tax rate. High taxes and 5-cent corton do not go well together, and in my judgment it should be the earrest purpose of every officer of the state during this present "The generally accepted fact that the

should be the earrest purpose of every officer of the state during this present period of depression to keep the expenses of the state down to the lowest possible figure, consistent with an effective and capable administration."

Senator Cook declined to discuss his candidacy beyond this, but he said he proposed to make an active campaign, and it is likely that all the democrats in the state will hear from him in one way or another before election day. During the day he was deluged with congratulations, and his friends in town would not even let him return to his home in Leesburg last night. Personally he is one of the most popular men in the state, and during the last session of the legislature the conspicuous position he ocupied as chairman of the joint penitentiary committee of both houses won for him a reputation that is largely responsible for the call now made on him to stand for a higher office. He says he did not want to make any public announcement before because he felt that it would be discourteous to Colonel Candler. He called on Uncle Mark Hardin at the

capitol, and the two after a genial chat, walked down town together. Uncle Mark said he disliked very much to oppose Senator Cook, and Senator Cook said that the most distressing part of the affair to him was that he had to beat Uncle Mark. They teld each other about their plans, and parted in the best of good nature. In all the present contests for office there is no ill-feeling that amounts to anything, but in this particular contest it is safe to pre dict that there never will be any. A whole lot of good democrats throughout the state will be troubled in chocsing between them, but the candidates themselves will no: quarrel. The friends of Senator Cook yesterday seeed especially confident of his

Representative Hall's visit to Mr. Ter rell led to a somewhat lengthy conference and nobody but those two know just what was said. At its conclusion, however, word was mysteriously passed about the capitol that the distinguished young Coweta lawyer would stand as a candidate for attorney general, and he practically admitted as much when asked about it. Mr. Terrell in response to a similar question, said that when he announced for governor he would unquestionably not be a candidate for attorney general, and that he had said so to all who had told him they were con sidering the matter of running for the place. He did not believe that it was good democratic doctrine to stand for two offices at once, and he frankly said that he had been worried a good deal in deciding which course to choose.

This leaves a field of three candidate for attorney general-Hewlett A. Hall, Harry F. Dunwody and John W. Akin. Mr. Hall is Governor Atkinson's law part ner, but during his brief political caree he has shown a spirit of independence which makes this fact of little significance in the present conflict. Mr. Dunwody is Georgia senate and he lacked only one vote of being elected president of the same. Mr. Akin is president of the Georgia Bar Association and has been too busy with professional duties during his life to dabble much in politics. There has been some talk also of the possible candidacy of Senator Chariton E. Battle, of Muscogee, but Senator Battle is authority for the statement that he not only will not

enter the race, but that he has never even seriously considered becoming a candidate.

For the first time since Hal Lewis was appointed to the supreme court to succeed Spencer Atkinson it may be authoritatively announced that he will be a candidate for re-election. He reached this ermination last week and terday told his distinguished sociates on the bench of it-told it them ahead of all others, because they, more than anybody else, had urged him to go before the people to be confirmed in a position already assigned him by the chief executive of his state. Judge Lewis during his brief term as justice of the suprem court has won both the professional respect and the personal affection of the other fustices. They want him to stay with them. That he is willing to do so is generally accepted as an advance certificate of his election.

There is so much of downright, actual hard work in being a member of the supreme court that a young and vigorous man like Hal Lewis is welcome alike his brain and for his brawn. There has never been any question that Chief Justice Simmons and Judge Fish, the other two justices whose terms expire, would succeed themselves, and the present outloo indicates that all three will be returned without opposition. There is usually some talk of other candidates whenever any high office, either executive, legislative or judicial, is mentioned, but in this instance there has not even been speculation as to their re-election. All of which goes to show that Georgia knows a good judge when she has one.

An error in The Constitution the other day made it appear that Colonel William E. Clifton was a candidate for secretary of state, and that the Hon, Joseph Mans field, of McIntosh county, was doubtful about risking his political life in another run for the legislature. Nothing could have been further from the mark. Colonel Clifton will succeed himself as secretary of the senate, with Lieutenant Colonel Charles S. Northen as assistant, and he has never told even his most intimate friends that he contemplated standing for any other office. Uncle Joe has aroused some opposition in McIntosh because of his aggressive tactics as a member of the legislature, but even his opponents concede that he can come back to the capitol if he wants to. In fact, he may whirl in and come to the senate if his enemies get too Another piece of recent senatorial news

is that the Hon. Sim Blalock, of Fayette, has about made up his mind to come to the upper house and to contest the presidency with Mr. Dodson. The Sumter county gentleman has made a thorough canvass of the entire state in his interest, but Mr. Blalock says he is not discouraged at the outlook. This means that Representative A. O. Blalock will not return to wrestle with John Little, of Muscogee, for the speakership and seems to open up all sorts of new political possibilities. Some of the old members want Jack Slaton, of Fulton, to wield the gavel next time. R. B. C.

LETTERS FROM THE PEOPLE

The Flags of the Union. Editor Constitution—Have the officers of the nation special flags, such as they have in England? STUDENT. The president of the United States, the secretary of war and the secretary of the navy each has a special flag. The

was designed for, and first used by, President Arthur. It is of blue bunting, with an eagle in the center, with outstretche Wings, and bearing the shield of the United States on its breast. In its right talon is an olive branch; and in its left, a bunch of arrows. There is a row of thirteen white stars, curving over and around the eagle The flag of the secretary of war, quite recently designed, is of red bunting, with the eagle in the center, and four white stars, one in each corner. That of the secretary of the navy was designed about eight years ago, and is of blue bunting, with four white stars in the corners, and an anchor in the center. These are the only special flags belonging to government als, except those used by certain officers of the navy. The public is not familiar with them because they are never use except on occasions of ceremony. The flying of the president's flag indicates that he is in the building, or on the vessel, over which it is hoisted. The flag of the secre-tary of the navy is also used only when he is on board a government vessel, when it is hoisted at the main. The flag of the secretary of war has not yet been used, but like the others, its display will indicate the presence of the secretary.

The Egg and the Cotton Crop. Editor Constitution—You will please inform me which the statistics show to be the greater, the egg or the cotton crop.

JESS L. ROGERS, JR.

Hillsboro, Tex., January 6, 1898. The latest available figures as to the egg and cotton crop is to be found in the United States census of 1880 and 1890, covering the years preceding. Figures for other years are but estimates made by the department for the cotton crop and none for the egg crop. These figures give the following re-

293,358,85 While on this subject it will be observed that the cotton crop for 1895 fell away belo that of 1879 and 1889 in valuation. In 187 the average New York price for upland midlands was 12.2c, and the total production 5.761,252 bales. In 1889 the average price The crop of 1895 brought an average price of 8.16c, with a production of 7,157,346 bales. Thus it will be seen that, though the crop of 1895 was smaller than that of 1898, it brought \$137,431,403 less.

Pierce Butler.

Editor Constitution—Flease give a short sketch of the ilfe of Pierce Butler, of South Carolina, a member from that state of the convention that framed the federal constitution.

WILLIAM B. COLLINS.

Thomson, Ga., January 8, 1898.
Pierce Butler, the famous South Caroli-mian, was born in Ireland July 11, 1744, of noble parentage. At the age of eleven he held a lieutenancy commission in the Brit-ish army, and shortly afterwards assumed captaincy of his command. In 1766 he be-came major of his regiment, in 1773 selling his commission and moving to South Caro lina, where he married a daughter of Colo-nel Middleton. He took an active part in politics after the close of the revolution He was chosen a delegate to the continental convention in 1787, but did not take his seat for some time, being in the interim engaged for some time, being in the interim engaged as a representative at the convention for framing the federal constitution. He was prominent in his connection with that body, opposing the plan for a triple executive, claiming that property was the only true basis of representation. From 1789, until 1796 he served South Carolina in the United States senate, when he resigned. In 1802 he was again chosen, and resigned in 1804. He opposed Washington's administration in the main, voting in favor of Jay's treaty, thus incurring the taunts of many of the hewspapers on his noble birth, of which he was very proud. He was also a director in First and Second United States banks. He died in Philadelphia February 15, 1822.

CEORGIA SKETCHES OF NEWS AND COMMENT

A Bouquet of Compliments.

The Rome Commercial is of the opinion that "The Candler boom seems to gather strength as it grows." On the same line The Waynesboro Citizen has this to say: "If Hon, Allen Candler is in the race in earnest for governor, he will be the most dangerous candidate all other aspirants will have to meet. He was umong the bravest of the brave in the war and has been a true and tried, honest and capable statesman since. He will make one of the best governors Georgia ever had if he occupies the executive mansion."

Hon. F. G. duBignon has a warm friend in The Milledgeville Union-Recorder, which thus vouches for him:

"Hon. F. G. duBignon is not only brilliant and brainy, but he is a man of the south. He is a native of Baldwin county and the first choice of her citizens for chief executive."

After the Tragedy.

The Brunswick Times, after discussing the tragedy of the Mabry defalcation, declares that "the great wonder is how a man with \$15,000 on his person ever sot out of Glynn county." Now that he is tak there will be abundant time to talk the matter over.

The Secretaryship of State.

In southwest Georgia great interest has been aroused in the filling of the office of secretary of state in view of the candidacy of Senator Phil Cook for the place. The

of Senator Phil Cook for the place. The Lee County Journal says:

"Senator Cook is an elegant gentleman and one of whom the citizens of Lee county feel proud. He has just filled with honor to himself and credit to his district the important office of senator from this district. While he has been in the state senate Mr. Cook has made friends in all parts of the state who will support him most earnestly for the high place to which his friends have selected him. Lee county takes great pride in presenting the name takes great pride in presenting the of her splendid son for this office does not present him as a candidate does not present him as a candidate of any section or on any issue, but as a clear, honorable, upright man who would fill the office with great credit and distinction. Senator Cook comes of the highest parentage. His father, the late General Phil Cook, who filled every office to which the people elected him with such honor, was a man whom everybody loved, and now that they have in the son an honorable son of an honorable father, they feel that it would be an honor to the state to elect this excellent gentleman to the post of secretary of state."

Covington Enterprise: The friends of Hon. L. L. Middlebrook, of Newton, will press his claims for secretary of state, and in the event he is nominated and elected he will fill the position with credit to himself and honor to the state. He is fully capacitated to discharge every duty of that office.

Newnan Herald: Miss Annie Meriwether, daughter of Mr. W. D. Meriwether, was the victim of a painful accident that may prove serious. Her brother, Mr. Phil Meriwether, came into the room where she was sitting and took a seat near her before the grate. Soon after taking his chair he stooped over for some purpose and while in this posture a pistol dropped from his pocket and fell upon the stone hearth. The hammer of the pistol struck the rock is falling, and the weapon was discharged. Miss Meriwether's left hand was folded on her bosom at the time of the explosion, and it was in direct line with the bullet, which crashed through the knuckle of the fourth finger, shattering that member. It also made a flesh wound three inches in length on the forearm, passed entirely through the left breast and buried itself finally just under the shoulder-blade. The other wounds are quite severe also, the eventual result of which cannot now be foretold.

orator:

"They call me a loiterer on the streets, do they? If I am a negro woman, the man who made such a statement ought to hide his head in shame. God knows I work. Did I say work? I ought to say slave, for I am one of the poor washer-women who toil over the tub and fire for a week for \$1.50. Yes, I walk on the streets at night and I do it to carry a load of clothes on my head which I don't believe a policeman on this force could carry. Yes, I stay out late at night going after the clothes and after my money, which sometimes I never get. And to think that after I have toiled so to make an honest living for myself and poor old mother, that I should be dragged up in a police court because I was forced to walk out on the streets at night."

The recorder dismissed the case.

Past records for January weather wer mashed and then cooked and scalded in the hot moisture of the day. A nice day, burning, arid, parched and scorching day in July would have been a paradise to the dirty Turkish bath Atlantians were given. Seventy-three degrees above in the shade, with the humidity in the air registering nearly 100 per cent, was the record yesterday. It was worse than hot. It made the population feel as if it had been steamed and then hung.up to dry without experiencing any of the benefits of the drying pro-

"Figures," said the weather prophet, as he wiped large floods of perspiration from his face with one hand and wrote weather predictions with the other, "Why, you don't need figures to prove that this is a record breaker. Just sit around, walk around or stand around and scald for awhile, and you'll see we are having weather we ought not to have. Thermometers are not needed to convince a man that it's warm today."

But the weather official kindly produced his statistics and proved that no other year on record here has ever sprung such weather on us at this particular date. Only once before on the 11th day of January has the temperature gone so high as 73. That was in 1890, eight years ago, but that day was a cool, pleasant, bracing and invigorating day, compared to yesterday. The sun shot down some hot rays then, but the dry, vaporless air drank up perspiration from human bodies like a huge sponge, and people didn't go around feeling like a damp rag, with hot vapors sauntering up their backbones and a headachy feeling caused by moisture. In 1890 it was a decently warm day, with the humidity at about its normal figure. Next to yesterday it was the hottest day, but it was a dry, hot day and yesterday was a wet, hot day, and the two compare about like nice warm, well cooked

biscuits and soggy, clammy rolls. Yesterday morning was worse than the day as a whole. People woke up hot and damp. The first observation at the weather bureau showed the temperature to be 63, while the humidity was 97, or within only 3 per cent of being as moist as the air can possibly get. When the air is totally saturated with moisture it is but 100 per cent. Yesterday the moisture was so dense as to condense itself into foggy mist at times. The temperature yesterday as compared to that of January 11th of past years as recorded in the weather bureau for nine-

teen years is as follows:

It will be observed that in no year was the minimum temperature as high as it was yesterday. In 1890, when the maximum as high the minimum was but 56. was as high the minimum was but 56. This made the mean temperature for the 11th in 1890 to be 65, while the mean yesterday was 68, just three degrees hotter than ever before. This coupled with the extreme humidity makes the day a record smasher. The coldest 11th of January was in 1886, when the temperature went 2 degrees below zero. The normal temperature for yester-day was 40 degrees, and the record for the days shows that it was just 28 degrees above the normal, or almost twice as hot as it should have been. Despite the ab-nomal cold of the first days of January, the past few hot days have run the temperature up to 70 degrees above the normal for the eleven days.

MR. THOMAS R. R. COBB BETTER. His Physicians Now Believe His Condition Is Very Encouraging.

The condition of Mr. T. R. R. Cobb, who is now in Orlando, Fla., was more favorable yesterday, and his physicians, according to a telegram received from there, are hopeful of his recovery.

The friends of Mr. Cobb have been very solicitous about him, and many inquiries are daily made as to his condition. He is suffering from incipient consumption and lung fever, and, although his condition has been regarded as being very precarious, it is now hoped that he will soon be able to recuperate.

The following is the telegram: The following is the telegram:

Beck Will Make the Request at This Afternoon's Meeting and Others Will Probably Back Him.

The tax committee of the city council will have its hands full when it meets this afternoon at 3 o'clock. There will be presented to it a problem which it has probably never before attempted to solve. The tax committee will be requested to place a very heavy tax-probably \$1,000 per year—on the International Trading Stamp

Company, which has recently established a branch in this city.

The request will be made, not because it is desired to increase the reviewes of the city. city, but because certain citizens believe the stamp business to be detrimental to their interests, and for that reason desire to force it out of business.

The request will be made by Mr. J. F. Beck, manager of the Troy Steam laundry, and he will be backed up by a number of

Mr. Beck is bitterly opposed to the stamp business, and is of the opinion that it interferes with general trading interests. He believes that the company should be forced out of business and will make an effort this afternoon to have the tax committee im-

Mr. Beck believes that sooner or later essary for laws to be passed at the next legislature.

Old Mammy Annette, who had raised Judge Andy "down in Coweta" and all the other Calhouns for a couple of generations back, too, was in the police court yesterday afternoon to get her character vindicated. When the case against Nathan McGee was called the old negro woman was the star witness. She walked to the front, and making a low courtesy, said:

"Howdy, Marse Andy." The recorder replied to the salutation, and then old Mammy Annette said in a voice that trembled with age, for she is seventy-five years old:

ALL BAIL BATES UNCHANGED. Board of Arbitrators Renders Decision

on Traffic Dispute. on Traffic Dispute.

St. Louis, January II.—The decision of the board of arbitrators in connection with the adjustment of rates on traffic frem points in the United States to points in the Republic of Mexico, via all rail, versus rail and water routes, has been promulgated, the effective date of the new rates being January 24, 1898.

The adjustment reached provides that the rates via all rail routes shall remain unchanged, the rates via rail and water routes being the established differentials, less as already announced.

In addition to the routes operating through New Orleans, La.; Pensacola, Fla., and Mobile, Ala., the rail and water rates will apply via Galveston, Tex., between which ports it is understood that the Atlantic and Gulf Steamship Company will shortly establish regular service.

other laundrymen and probably a number ciding the Griffin case at Macon last Sat-

Messrs. Brewer & Hanletter, of Griffin, had asked the federal court to grant an injunction restraining the railroads from charging more from Ohio river crossings to Griffin than they charged to Macon on the same class of goods. The interstate com-merce commission had held that Griffin should not be charged more than Macon the company will be forced out, and thinks that this will come about even if it is necthe long and short haul section of the in-terstate commerce act.

Judge Speer held that the circumstances were dissimilar at Macon, so created by both water and rail competition. He had a decision of the supreme court of the United States to go by and decided against the

It may have been a coincidence that the commission on Monday handed down an-other opinion in a case involving the same juestions and practically the same circumstances, and adhered to its policy of trying to break up the railroad rate system which prevails in the southeastern

states. Yesterday's Constitution contained a brief announcement from Washington that the commission had decided that LaGrange was entitled to rates as low as Atlanta on busi-

less from New Orleans. The railroads had insisted that they should be exempted from the operation of the long and short haul clause, because of the meeting this afternoon or not. The competition at Atlanta. It is rail company has not heretofore troubled itself petition, it is true, but there are it ree or four lines here from New Orleans and the competition is keen. This competition created dissimilar circumstances and conditions, said the carriers. That is, Atlanta is a competitive point. The short line may make the rate and the other roads have to meet it. This is a basing rate. The rates from New Orleans to LaGrange, Newnan, Palmetto and other intermediate points are made by adding the local rate from Atlanta back to the point of destination on to the through rate from New Orleans. In the Social Circle case, which was the first of these cases from the south decided by the supreme court, it was held that the competition at Augusta from the east did not create such dissimilar circumstances as to warrant the roads in charging more for the long haul than for the short haul, the latter being included in the ferm-

er and the traffic moving in the same direc-That was decided in March, 1896. Last November the supreme court decided what is known as the Troy case, holding that the railroads had the right to charge more from Troy to the east than from Montgomery to the east, although traffic from Montgomery going to the east might pass through Troy.

It is presumed that the Griffin case will

be carried up by the interstate commerce commission to the circuit court of appeals, and whichever way it goes there it will very likely go on to the supreme court of the United States. The LaGrange case may take the same direction. Said a railway traffic official yesterday:

"The interstate commerce commission long ago made up its mind to change the system on which the southern roads have been doing business for twenty years, if they could. As it well known, we have what we call basing points. These are cities which have competition and large capital invested in enterprises of various kinds. Naturally, these points have always had a less through rate than the smaller points. The commission wishes to tear down the larger cities by depriving them of the opportunities to do an extensive wholesale business, there being no substan-Henry Chastain Locked Up in Jail Cell Last Night.

of Lee street and the Decatur car line there was sleeping last night a little baby girl just one month old, and while it slumbered sweetly its papa was rolled up in a blanket in one of the cells of the Fulton county jail. The papa was in jail because he had never called to see the baby girl in all of its thirty days of life.

It was a case of willful desertion, and a rather remarkable case, for Henry Chastain, the papa in the cell, had never even seen his little girl.

Last night about half-past 9 o'clock Balliff Greer, of the Edgewood district, came into the city with Chastain in charge and carried him to the county jail, where the pris- Fine Tennessee oner was locked up on a warrant charging him with deserting a minor child.

had a less through rate than the smaller points. The commission wishes to tear down the larger cities by depriving them of the opportunities to do an extensive wholesale business, there being no substantial reduction in rates to the intermediate points, if any at all. Just as the Georgia road had to do in regard to-Augusta, they would simply have to go out of the carrying trade between many points where they now do a large business at a small profit. For instance, if the roads from the west were to advance their rates to Macon, they would not get any traffic, because it would go around by Baltispore, down the coast to Savannah and there into the interior by rall to Macon at the rate which is now being charged by that route.

"I am afraid the merchants of Atlanta and many another city do not realize how their territory may be out off at any time by court decisions. Fortunately for them, the supreme court has treated each case so far on its merits and has not made any broad, sweeping rule or decision. But if the commission gets the power from congress which it wants, and is authorited to fix rates, the doom of many a city will be sealed. A general overturning of the rates from the west into the southeast on the theory of the commission would hurt the roads, the southern cities and some of the western shipping points without benefiting anybody. The commissioners, or some of them, at least, not being practical railroad men or shappers, but lawyers, have certain theories which sound all right, but they do not work out in practice. The commissioners say that more should not be charged for the short haul than for the long haul, when the former is included in the latter and traffic is moving in the same direction—that is, in the southeastern states. Yet the commission alt has a right to do under the law, on the ground that the conditions were unlike and dissimilar. But it does not grant exceptions in the southern roads and the southern commercial centers. Chastain married Miss Mary King, an acknowledged belle in her set, and the wedding was looked upon as a union of two loving hearts. The young couple rented apartments in a cortage on Lee street and Chastain continued at his trade in the Atlanta Cotton Spinning Mills. Everybody regarded them as a model couple and there was never a suspicion of any slam on Cupid in the way of an unhappy match as the months sped by.

WAS THE WOMAN DRUNK?

Two nights ago a policeman arrested a white woman who gave her name as Mrs. E. E. Miller. It was ascertained that she was the wife of a respectable white man, and although the officer was positive she was drunk, he allowed her to go home upon a bond signed by herself and upon her promise to appear in the police court for trial. The case was called yesterday afternoon, but the woman was not present. Her husband was in court, and he gave the recorder a physician's certificate, stating that Mrs. Miller was too ill to leave her house. Miller contended that his wife had not been drunk, but was sick at the time, and the officer made a mistake. The matter was about to assume a heated controversy when the recorder said he would dismiss the case.

WAS THE WOMAN DRUNK?

Southern's flyer at midnight.

About a month ago a little babe came into their home. The father wouldn't go near it, but instead left his wife and has remained away ever since. The wife made every possible effort to get her husband to return to her and sent him many loving messages about the "dear little taby girl which awaited a father's tender and raternal kiss." Tired of waiting, the young wife decided to see what virtue there was in law to make her absent husband go back to his deserted offspring. So the warrant was sworn out and Chastain was thrown into a prison cell.

When asked last night about the affair. Chastain, who is not over twenty-three years of age, laughed and said:

"Oh, I have reasons, of course, but I will not tell them until they try this on a while longer. It is true I have never seen my little baby, and I never will if I can help. I haven't anything against the child, but I don't want to go home. I left my home on December 10th and I have been at my father's home on Oliver street ever since. I didn't try to leave the city, although I could if I had wanted to."

"Don't you love your baby?" he was asked.

LILY MASON AGAIN ARRESTED. The Cason Hack Robbery Case Is Not

Ended.

Lily Mason, the white woman who was charged with assisting in administering knock-out whisky" to Cason, a horse dealer from Florida, and then relieving him of money while he lay unconscious, was re-arrested yesterday afternoon on a war rant charging her with the crime. She was taken before Justice Foute, where she gave bond for her appearance before that magistrate for preliminary trial tomorrow morning at 11 o'clock.

Lily Mason attracted the attention of the officers on the night of the robbery by separating from Cason at the corner of Whitehall and Mitchell street, he stumbling up Whitehall street into the arms of the cer, while she went to the room of H. endricks, on Forsyth street Hendricks was bound over on his preliminary hearing and will appear before the supecourt during the present term. It is said evidence has been discovered Which shows that the Mason woman played a very important part in the robbery and no time was lost in swearing out the

warrant. She gave bond for her appearance, John Faith standing as security.

FISHERY CONGRESS MEETS Manufacturers' Congress To Be Held

in New York.

NINETY-EIGHT REFORM MOYES SCHEDULED

The Omaha Exposition Will Be Among the Largest and Most Important Events.

The first one scheduled for the year in a big fishery congress, which sits at Tampa, Fla., for one week, beginning Wednesday, January 19th. This congress is international in its scope and is intended to reach both the statesman interested in the fisheries question and the sportsman interested in "Have I got a bite?"

Fishery Congress. The fishery congress is to be held under the auspices of the governor of Florida and the United States fish commissioner and from the old countries delegates have been invited to attend and have cabled their acceptance

Two large buildings have been erected upon the exposition grounds in Tampa for the congress an auditorium and an exposition building. After the congress has concluded its week of sitting the exposition will remain open until March.

A fly-casting tournament for the bene fit of sportsmen will take place, machines for drying fish will be exhibited and frog culture, from a food standpoint, will be

Manufacturers' Congress. The National Association of Manufactu

rers of the United States meets in New York January 25th. This association, while formed in 1895, has planned nothing of great importance until this year, but at this meeting an important adjustment of tariff duties will come up. The tariff is viewed by the association

as a business problem and the adjustment of the rates of duty in such a manner as to equalize the cost of imported articles and goods made in the United States represents the view of the tariff problem as held by the majority of the members of the association. New markets will also be discussed for American products. A glance at the names of the financial committee shows the importance of the association. The committee includes these internation al names: Charles E. Bigelow, Sigourney W. Fay, Jordan L. Mott. Charles E. Hau selt, Frank L. Babbott, Joseph C. Hoagland, J. Walter Spalding, William C. Beer, George F. Perkins, John Hanan, Richard Young, Charles H. Webb, Robert Hoe, Timothy L. Woodruff, E. D. Church, William A. Nash, Alfred Dodge, Robert H. Swayze, H. C. Dunscomb, George Freelinghuysen, Augustus G. Paine, chairman Albert A. Pope, Stewart Hartshorn, Charles Steinway, Eberhard Faber, Allan Mac-Naugton and Lowell M. Palmer.

United States College.

A very important event of the year will be the establishment of the George Washington Memorial building. This will be a great free educational institution located probably in Washington.

When George Washington died he left a bequest in his will toward the founding of a United States institution of learning. This fund now amounts to \$4,401,000. Near Lafayette square, Washington, there are nineteen acres of land owned by the government and held for the purpose of such an institution, and in various quarters are large sums prom/sed also.

The women of the United States have taken up the work, headed by Mrs. Eugene Hale, Mrs. Henrotin, Mrs. Margaret Bottome, Mrs. Andrew D. White, Mrs. Mark Hanna, Mrs. Charles Foulke, Miss Rachel Howland, Mrs. H. H. Adams, of Connecticut; Mrs. F. H. Gerrish, Mrs. David Starr Jordan, Dr. Charlotte Blake Brown and Mrs. Calvin S. Brice.

Mrs. Hearst has all but pledged herself to endow a professorship, as have others. The committee amb tiously hopes to lay the corner stone of the George Washington building on next Washington's birth-

The president, Mrs. Ellen Richardson, of Boston, thus explains the project:

"The wish and bequest of George Washington, the sure love of devoted men, the nights and dews of oblivion, have all fulfilled the conditions of nature as far as they could, and stand ready for the magical influence of women's co-operation to help the realization of this ideal power into practical life. And so the George Washington memorial committee is organizing throughout the land, with definite aims, indefinite time and I may add, with definite assurance of success. There are nineteen acres of ground near Lafayette square, Washington, now owned by our government and held for the purposes of the University of the United States. The patriotic ladies of America are to build the administration building, and they propose to make the 22d of February, 1898, the nation's first offering day for this purpose, asking (no large contributions, begging nothing. America's 70,000,00 people must build this great monument. If the 13,000,000 children in the public schools in America would give an offering of a penny each on Washington's birthday, they would raise a sum sufficient to erect the building and endow it. Let us then join hands and have an American university, American sciences and American ideas for American citizens."

Ninety-Eight Reforms. Ninety-Eight Reforms.

A move in another but not less praiseworthy direction takes place in New
York the 15th of January, when a number
of statesmen, headed by Lyman J. Gage,
secretary of the treasury, meet to consider
election reform.

These gentlemen hold that abuses and
misrule, such as election frauds and boss-

election reform.

These gentlemen hold that abuses and misrule, such as election frauds and bossism, are the results of defects in the caucus methods, and they want to get together to reform eelections, so that citizens of high standing will take an interest in poll work. The Chicago workers are headed by Lyman Gage, Melville E. Stone, Franklin Mac-Veigh and John V. Farwell.

From Boston come Mayor Joseph Quincy and S. D. Capen. And other important workers are Senator George W. Brush. of Brooklyn; Mayor Edward Jewett. of Buffalo; William Barnes, Jr., of Albany; Chancellor James R. Day, of Syracuse university; Mayor W. G. Rauschenberger, of Milwauke; President Warner, of the Cleveland chamber of commerce; Frank N. Hartwell, of Louisville: President Crocker, of well, of Louisville: President Crocker, of the Minneapolis board of trade; Mayor Samuel M. Jones, of Toledo; Edward Rosewater, of Omaha, and Mayor James D. McPhelan, of San Francisco.

The Omaha exposition will be the biggest work of the midyear, and following close event of the midyear, and following close event of the midyear, and following close upon the properties of the Pan-American exposition in the Niagara river.

In an Affidavit He Says He Has Authority To Appear Against County.

AN INTERESTING ARGUMENT

City Attorney Anderson and Mr. Alex. King Speak Today Against the Permanent Injunction.

Argument in the courthouse-city hall in junction case consumed the entire after-noon yesterday before Judge Lumpkin in chambers, and only two arguments had been completed when the hour of adjourn-ment was reached. The hearing will be esumed this afternoon at 3:30 o'clock, bu It is not thought that the end will be

reached before tomorrow afternoon.

When the argument was resumed yesterday afternood, Judge Palmer submitted to the court an affidavit in which he gave his reasons for appearing as a member of the bord of county commissioners, and at the same time appearing as counsel in a suit which was brought against the board of which he was a member. He declared that he had a right to appear in this dual capacity, and that he was only doing his duty as a member of the board when he fought the sale of the courthouse to the city and the erection of a new courthouse by the county. The affidavit was along the virtue of his position as a member of the board he was entitled to bring the action. This affidavit was in reply to the charge made by the city and county that Judge Palmer could not act county commissioner and as an at torney against the county at the same

Mr. Alex C. King, representing the county, having been associated with County Attorney Rosser, objected to the reopening of the case at this time, saying that the affidavit of Judge Palmer was not responsive to any of the pleadings. Mr. King moved that the court strike out all of the affidavit where it appears that the facts appear on the minutes of the board of commissioners, claiming that no county commissioner in law could be allowed to that reason the court should not entertain

bill brought by such an officer.
The court struck from the affidavit the things that appeared on the minutes of

County Attorney Rosser said he could not understand the consistency as to the position occupied by Commissioner Palmer, when he was sworn to represent the county as a commissioner, when in fact he was fighting the county through the courts. Attorney Rosser referred to the charter of the city, showing that it had the right to purchase the city hall and that the county had the right to sell the courthouse. He contended that the county and the

city had all authority to make the sal and the purchase, and he cited a number of authorities bearing on the subject. This afternoon City Attorney Anderso and Mr. Alex C. King will speak on the case, and their speeches will probably consume the hours set apart for the case.

THE INSURANCE FIELD.

Mr. Thomas Peters, of the Washington Life and the Greenwich Fire, is expected back tomorrow from New York. Those who know him well say that he is going to make things hum with his new company, and make a new record for himself.

Word comes from New York that President Armstrong, of the Manhattan, will not enter the south, but will confine him-self to the richer territory. He has his old adjusters back with him and a few of his old staff. He will write as much as \$40,000 on a risk which is provided with sprinklers, and is in every way first-class. He will go after targe line, but will not have many agencies, depending on the brokers and direct customers for the business.

Armstrong has had a checkered career— sometimes in and about as often out. When he reinsured in the Lancashire a few years ago, he got an individual bonus of \$100,000 The Lancashire found out later that it had bought a gold brick because the losses pile in on it heavily.

The annual fire premiums in Atlanta amount to between \$200,000 and \$400,000. All the companies put together wrote in Georgia in 1896 \$146,150,000 business, the premiums on which amounted to \$2,033,000. The total amount written was \$9,000,000 less than in 1895. The low price of cotton and the improvement in protection in the cities tend to reduce the volume of business. The better the protection, the less insurance a property owner carries.

"A \$10,000,000 fire would hardly be more destructive to fire underwriters than the re-cent reduction of rates, and yet there are plenty of fire insurance agents doing all they can to produce rate wars and bring about such a state of demoralization as would destroy the business of every agent in the country."

Moses Succeeds Crenshaw.

Messrs. W. M. and M. J. Moses, of Columbus, have been appointed Managers for
Georgia and Florida of the Standard Life
and Accident Insurance Company of Detrott, Mich., to succeed Mr. W. T. Crenshaw. This appointment comes as a mark
of appreciation by the Standard for the
efficient work done by Messrs. Moses in
southwest Georgia.

Mr. Crenshaw's extensive business interests made it impossible for him to give
the Standard the time it demanded of their
manager. Messrs. W. M. and M. J. Moses
will locate in Atlanta and will have offices on the second floor of the Equitable
building. M. J. Moses will arrive about the

In the police court yesterday afternoon the old man showed that he had just come from the country and had been knocked down and robbed of all the money he had—\$2.90. Two holes in his head attested to the assault and empty pockets to the robbery Dawson was allowed to go, and when he departed he shook his head and remarked: "Atlanty sure is a tough place fur a poor

TESTED NEW HOSE NOZZLE.

Chief W. R. Joyner, of the Atlanta fire department, tested a new hose nozzle yesterday morning. FIREMEN STUDY BUILDINGS

Officers of Department Are Inspecting Business Portion of City.

IS AN ANNUAL OCCURRENCE

Is for the Purpose of Familiarizing the Officers with Entrances, Exits and Cellars of Buildings.

The foremen of the different companies of the Atlanta fire department began an inspection of the business portion of the city yesterday for the purpose of familiarizing

themselves with the large buildings. The inspection is made by the foremen in order that they may familiarize themselves with the buildings where fires are likely to occur. They observe the location of stairways, cellars and entrances and ex-its to the buildings.

During the year changes are made in essary for an annual inspection to be made in order that the officers of the department may know how to get in and out of in the dark and know where stairways are to be found. The alleys in the rear of buildings come in share of the inspection and all of them are visited.

It is a matter of great importance that the officers of the department be familiar with the buildings in the city. In the case of fire they always direct the work and lead the men, and their knowledge is relied ipon to a great extent. The officers of the department keep vell

posted on the buildings and have watched

them for many years. The changes are what occupy most of their attention in this inspection. It will take them several days to finish the tour of the city. Assistant Chiefs Cummings, Emmel and Haney will make the inspection as soon as the foremen have completed it. Their inpection will probably be even more care ful than that of the other officers. It is necessary for them to know as much as possible the exact lay of the land in all buildings of importance and they will spend a great amount of time studying the situa-

OUR MARKET WAS UNEVEN

Were Points of Strength and Other of Marked Weakness-Sugar Especially Weak.

New York, January 11.—London operators in American securities had apparently recovered some of their confidence in the future of values in this country today. Some sharp gains were recorded for Americans on the London exchange before the opening here. In fact, London bullishess outran the local opinion, and New ork prices did not respond fully to the rise in that market. The market sil day was one difficult of analysis on account of its unevenness. There were points of notable strength and others of marked weakness in the list, and neither was altogethereffective in giving tone to the market. Sugar was the special point of weakness. The grangers were also heavy early, though subsequent recoveriesi brought their prices a fraction above yesterday's close. Ine coalers were very weak. Northern Pacific and Union Pacific stocks were very strong. This strength seemed to extend also to allied and connecting railroads in the west and northwest. Thus not only are Northern Pacific and Union Pacific from 1 to 1½ per cent higher, but also Denver and Rio Grande preferred, Union Pacific, Denver and Gulf and other western roads. Oregon Navigation, Oregon Short Line and Gregon Improvement show gains ranging up to 24. These stocks were strong on anticipation of increased traffic from the expected movement to the Klondike. The dealings in the stocks of these trans-continental lines were very heavy. Manhattan was another strong feature of the market on the authoritative announcement of an irention to change to electric power. Central Cotton, Stocks and Grain Exchange Stock Letter.

Atlanta, January 11.—The opening of the stock market Tuesday was attended by fractional advances extending from 14.01/2 per cent, the latter gain being scored in Tennessee Coal and Iron, Brooklyn Aspid Transit, Northern Pacific and Denver and Gulf.

The local traction stocks were strong in

The local traction stocks were strong in

Guif.

The local traction stocks were strong in sympathy with the % per cent advance in Manhattan, which was induced by reassurances that the road would be operated by electricity in the immediate future.

London's quotations on Americans showed marked gains, but the betterment sustained by the local market was very moderate in proportion.

The grangers and Sugar were picked out as weak spots, and a vigorous attack resulted in recessions of a point and over. This action arrested the upward trend for a time; then an appreciable degree of recuperative power became manifest, and the market experienced a good rally.

The granger stocks were too slow to participate in the improvement, despite the favorable traffic returns of St. Paul, which, for the first week of January, showed a gain of \$100,011. This group continued heavy, and toward noon the market was again fluctuating under depression with Manhattan and Northern Pacific preferred on the side of gains, while the general l'st was irregularly lower; but later, on advices from Ohio relative to indications that Hanna would undoubtedly succeed himself in the senate, fractional advances took place throughout the list, and late trading was not very active, and prices moved rather narrow.

Southern Exchange Stock Letter. Atlanta, Ga., January 11.—The market was more active today than on yesterday and the movement was perfectly healthy and natural. The market on yesterday felt the effect of the accumulation of orders over funday and the commission houses were active traders. The buying today was

well distributed over a wide range of stocks, showing that it is not confined to a few minor groups which are subject to manipulation on the floor.

The grangers continue strong with excellent buying of Burlington and Quincy and Rhode Island. The buying of Burlington above par has attracted considerable attention, and was a reflection of the belief that the system has in December made further substantial gain to surplus earnings for stock. George Gould, of the Manhattan, authorized the statement that he would equip the road with electricity without delay, and also stated that he proposed to leave nothing undone to adapt the accommodations to the requirements of the public.

Sugar proved the weakest stock in the list, Manhattan, B. R. T., and Metropolitan the strongest. The market as a whole showed but little signs of recession and closed with prices firm. Paine, Murphy & Co.'s Stock Letter. Atlanta, January II.—There was some disappointment yesterday in the inactivity of trading, and the believers in high prices came down town this morning unshaken, and were soon encouraged by London cables, showing a better tone. Opening prices here were from % to % per cent above last night's closing.

The first hour's market was subjected to realizing in the grangers, but soon terminated upon the quick absorbing of all offerings.

ings. George Gould authorized the statement that Manhattan would be equipped with electricity, and this caused some profitaking on the belief that the expense would be an item, but the belief that the benefit derived would prove profitable in the way of big earnings caused renewed buying, and in the last half hour this stock again advanced, closing within % of the extreme high price. high price.

We still believe in higher prices for the whole list and recommend the low-priced

New York, January II.—By Associated Press: The cotton market, after opening steady at unchanged prices to a loss of a point, further declined 264 points, with a subsequent feeble rally and closed steady at a net loss of 163 points. Sales of futures 125,300 bales. The market was particularly active during the first hour. The selling was in good part by the German contingent and on Liverpool orders. The basis of the weakness was the unsatisfactory character of the English accounts and claims that a glut of cotton was threatened at all shipping points in the south. There was considerable selling by longs, owing to the enormous movement.

Ricrdan & Co.'s Cotton Letter.

Ricrdan & Co.'s Cotton Letter.

New York, January II.—(Special.)—A decline of 1½ points in Liverpool this morning precipitated considerable liquidation in the local cotton market, and as a result prices are slightly lower. Although the situation seemed to warrant some decline, the same eager buying on all recessions that has been the feature of trading for two months past prevented any break. Receipts were large, but this, as usual, was ignored. May opened at 5.87, declined to 5.85, railied to 5.85 and closed at 5.87 to 5.85, with the tone of the market steady. There was more outside business today and it would not surprise us to see the deadlock broken by a good liquidation and lower prices.

Hubbard Bros. & Co.'s Cotton Letter. New York, January 11.—Liverpool evidently felt more pressure from southern holders this morning as we were confronted with selling orders from that market this morning. Outside buying, based on price, continued during the morning. Free selling by local brokers of a line of long cotton contributed to the weakness, but the market shows continuous resistance. One set of holders is replaced by another on a lower basis, but we have to face a heavy movement after spinners on the continent and America have bought heavily. The trade fears that a change in crop estimates, based on receipts, will cause a further decline unless there is more positive evidence of a reduction in acreage for the coming crop. The buyers argue that there will be a reduction, and they are willing to hold on this belief.

The Dry Goods Market. New York, January 11.—Conditions con-tinue dull in all lines of cotton goods. A review of the situation in all lines of staple cottons is unnecessary, the situation being unchanged. The demand for all lines of staple cottons is quiet, whether brown, bleached or coarse colored goods are con-

Atlanta, January II.—English advices had a rather depressing influence in the cotton market. The spot market was lower and recepts at Liverpool aggregated 69,000 bales, although 57,000 bales were American product. Nothing new transpired relative to the threatened strike at New Bedford, and domestic influences were small in number and had little effect. Trading was not very active and the local contingent was the most prominent factor in dealings. News from the south was insignificant and the movement at the ports was about as anticipated.

Paine, Murphy & Co.'s Cotton Letter. Atlanta, January 11.—Jiverpool futures closed quiet at 1-64d decline from yesterday. Spots were 1-32d lower. Sales 10.000 bales; middling uplands 3 7-32d. Receipts \$1,000, of which 57,000 were American. Manchester micding uplands 3 -23d. Receipts 3.600.

of which 57.000 were American. Manchester cloths and yarns were steady, with demand moderate. Weak Liverpool, heavy receipts and limited liquidation by some recent buyers were influences in today's market. The opening in New York was 2 to 3 points lower than yesterday's close. A prominent export house sold about 10.000 bales, supposed to be against recent spot purchases. This encouraged additional selling and prices gave way 2 to 3 points under opening sales. However, there was some investment buying, which stopped further decline and regained part of early loss, the final sales being about 1 to 2 points under yesterday's close, tone steady. Official port receipts 47,477, against 30,216 last year and 30,136 in/1894. The professional bears are surprised at the strength of the market in the face of the heavy movement, as ordinarily it would depress or the market in the face of the heavy movement, as ordinarily it would depress prices materially, but evidently the buying power is larger than anticipated. There are no new developments regarding the threatened strike in the east. Present indications point to satisfactory adjustment

Atlanta, January 11.—The market proved weak today on a report of heavy receipts and unfavorable Liverpool that showed that market had declined 1-64d in futures, with spots 1-32d off: sales 10,000 bales. The market prove a weak one throughout the session. Speculation continues to be very narrow, and in consequence the market is almost stagnant and devoid of interest. Nothing of material interest was received from either Manchester or Fall River. Southern spot market remains firm. Port receipts today, 50,000, against 30,216 in 1897 and 30,136

Central Cotton, Stocks and Grain Exchange Grain Letter.

Atlanta, Ga., January 11.—The declines during the past few days have been natural. It has nearly always been the case since the southern hemisphere became a factor in wheat growing that prices decline at this time of the year on account of the offerings for forward shipment to the wheat consuming countries, and indications are that conditions thus far have only followed the precedent, partly due to the weakness exhibited on 'yesterday's curb and partly to an opening decline of % to %d at Liverpool. Tuesday's wheat market started quietly and easier at a decline of %6% for the May option. Room traders and brokers, supposed to be acting under instructions from the Leiter crowd, were fair buyers from the start, and the market soon recovered from the opening depression, offerings becoming surprisingly light as the session advanced. Firmness resulted and an advance to 91%c ensued, around which price the market fluctuated narrowly. Outside of cable advices news rather favored higher prices. Rain was badly needed in California, and French stocks were represented at 160,000 bushels, against 2,500,000 bushels a year ago. This being due, it was said, to traders fearing a reduction of French duties and letting their stocks run down in consequence. Northeast receipts were somewhat smaller.

The coarse grains were dull but firm, following wheat. Receipts of corn were 805 cars, and oats 370 cars.

Provisions were easier. Atlanta, Ga., January 11.-The decl during the past few days have been na

Southern Exchange Grain Letter. Atlanta, January 11.—The market showed that wheat at opening had lost % from previous close, and the cable news was of a bearish nature, showing Liverpoot had declined % from previous close.

The market showed some strength after the opening, and soon advanced % over opening prices. It was currently reported that the Leiter crowd had come to the assistance of the cereal, probably to meet the raid made by Well that was not wholly sistance of the cereal, probably to meet the raid made by Well that was not wholly

the raid made by Well that was not whony unexpected.

Liverpool close showed that market had gained 4d from opening prices. The market should be bought on any and all recessions, and the strength of the situation is materially benefited by the strength of those to whose interest it is to see May wheat sell much higher. The market was firm throughout the session. Paire, Murphy & Co.'s Grain Letter.

Atlanta, January 11.—Lower cables were the weak feature at the opening. There was also rumors that the Well party would raid wheat at the opening. The Letter party were the best early buyers, which counterbalanced any such fear. After the early weakness there seemed general support. Seaboard clearances showed 4.300 barrels flour and 201.700 bushels wheat. Bradstreet's weekly statement showed an barrels flour and 201.700 bushels wheat. Bradstreet's weekly statement showed an increase in the visible of 138,000 east of the Rockies, with the world's increase 638,000. The tone after the note hour was firmer, and the buying noted above was responsible for the steady advance, which showed a Let gain of ic a bushel from the opening. Closing prices were the best of the day, with exporters taking 25 loads from New York. The situation is still mixed, and the cash wheat problem is still a feature. Provisions closed strong with a gain of 10c in pork from opening figures. Hog receipts 35,000, with 45,000 estimated for tomorrow. The buying was chiefly for export, especially ribs.

Coarse grains were stronger and look higher.

Corn Was Firm and Higher-Oats Were Firm but Quiet-Provisions Slightly Higher.

Chicago, January II.—Covering by shorts was the principal feature in all the markets on change today. Wheat was of sufficient rolume to overcome the effect of rather advances. on change today. Wheat was of sufficient volume to overcome the effect of rather bullish news, May closing at an advance of \(\frac{1}{2}\). Corn gained \(\frac{1}{2}\). Oats \(\frac{1}{2}\) c and provisions closed \(\frac{1}{2}\). Go higher.

Trading was light in all the pits. There were supporting orders in wheat at the opening and also enough buying in of short wheat at the same time to make firmness quickly follow a weak opening. First trades in May were at from \(\frac{1}{2}\). Ob\(\frac{1}{2}\). Compared with \(\frac{1}{2}\). Ob\(\frac{1}{2}\). Compared with \(\frac{1}{2}\). Ob\(\frac{1}{2}\). Compared with \(\frac{1}{2}\). Some weakness was developed on yesterday's curb, and anticipations of a moderate raid today probably had its influence on the market. The price slowly improved during the next hour, but the height of its forenoon bulge was \(\frac{90}{2}\). Minneapolis and Duluth receipts were \(\frac{37}{2}\). Same as against \(\frac{30}{2}\). The price slowly improved during the year before and \(\frac{40}{2}\). A week \(\frac{30}{2}\). Chicago inspection showed receipts of 100 cars, against \(\frac{41}{2}\) the corresponding day of last year. Liverpool cables reported the continent reselling cargoes of California wheat and Argentine cargoes bringing equal to \$1.50 (for January-February shipment, \(\frac{30}{2}\). year. Liverpool cables reported the Continent reselling cargoes of California wheat and Argentine cargoes bringing equal to \$1.50 for January-February shipment, and being offered for later delivery at from 99c down to 99½c delivered. The rews from 112 continent was also of a buillish character. Bradstreet's made the world's visible show an increase of 68,000 bushels, against a decrease the samlar week in 1897 of 1,630,000 bushels. Closing of the foreign markets was at from \$2\$ to ½d decline at Liverpool; from 150 to 50 centimes decline in flour at Paris with Antwerp unchanged. During the afternoon the market developed marked strength. The Leiter party certainly bought a good deal more than they sold. Toward the close the market responded quickly to buying, May advancing to 91½c, and was bringing 91c at the close. Corn was firm, although the markst was dull throughout the session. Shorts were inclined to cover. May ranged from 25%@ 51/2 to 28%@29c and closed %c higher at 25%c.

29%. Oats were firm all the day. The market was very quiet. May ranged from 23% to 23%.@23% and closed %c higher at 23%c. There was a small market in provisions. Prices were firm and ruled at a slight advance. At the close May nork was 50 higher at \$3.37%, May lard a shade higher at \$4.80 and May ribs 2%c higher at \$4.70. Estimated receipts Wednesday: Wheat 40 cars, corn 350 cars, oats 345 cars, hogs 41,000.

In future all cut glass sold by me will be marked with my name. Glass not so marked is not from my establishment. This is done to protect my trade, as the market is full of glass of cheap manufacture, and frequently this glass is brought to me to exchange, being represented as coming from my store. I only carry the finest quality and choicest patterns, and my glass has a distinct individuality, and when a piece is marked with my name you may be assured it is first quality. It has been my practice and my desire to furnish to my trade only goods of quality and merit. In the end the best is always cheapest. Charles W. Crankshaw.

Miniatures of Pet Dogs. One of the most enthusiastic artists in

New York, and one who seems to enter into her work heart and soul, is Mrs. Izora, Q. Chandler, who makes her artistic special. the miniature painting of pet dogs. Her studio is one of the most interesting places of the kind in New York, and though she has not as yet acquired that reputation for enimal painting enjoyed by Rosa Bonheur, she is an unquestioned success in the art of portraying "canine darlings" in miniature. she discusses her various subjects with the same appreciation of their individual beauty as would the portrait painter of fair women pesing for him, and declares it is quite as asy to teach the dog its proper pose as it would be to teach the child. "They are naturally graceful," she says,

and if they have been subject to gentle training, will assume their own pose with very little trouble." In an interview on the subject of her work Mrs. Chandler evinces wonderful knowledge of canine character and says, after relating various experiences with her "puppy" subjects:

with her "puppy" subjects:

"I believe dogs have souls, because they are worthy of souls. We claim superiority, and it is undoubtedly ours, but there is much we might learn from dogs. What saintlest Christian will receive the chastenings of the all pitiful Father with the patience and long suffering characterizing these dogs, who sometimes suffer such brutal treatment at the hands of man or child? They trust us until they are taught differently by hard experience.

"They are superior in manners, in gracious hospitality and in the maintenance of dignity. These friends of ours regard us without taking account of our faults. They never rebuke. They do not smile at our weaknesses nor gossip with the animals of our neighbors. They never say 'I told you so' when some unpleasant occurrence has made the day a burden. They take us as we are, and with all our faults they love us still.

"A divorce suit is never thought of by

as we are, and with all our faults they love us still.

"A divorce suit is never thought of by them. For better and for worse, with no thought of desertion and with absolutely no choice upon their part. It is strange that the love they bear us does not sometimes turn to hatred. They serve us faithfully till strength falls them, when we dispose of them as a matter of course. Yet they bear no animosity. They will show signs of recognition upon receiving a word of kindness, and their faith in us is so sublime that they seem to blame a relentless fate, but not ourselves.

"Their marvel of love and devotion is as unexhaustible as the deep sea. It is tender and long retained—indeed, in some instances only ending with death, consequent upon grief at a last parting with the loved master or mistress. But any parting is a grievous one to them. They are left behind or perhaps taken away with absolutely no knowledge of what is in store. No message can reach them; we cannot explain that the loved one will return or that they shall return to him; that he cares for them the same and wants to see them for them the same and wants to see them again. Only his voice or caress can reasure the faithful, anxious heart.

"Drummond, in his 'Natural Law in the Spiritual World,' touches upon the question of whether death ends all with these friends

of whom we have been talking. He says that we need not object to the immortality of the dog or of the whole inferior creation, only we insist that this is not eternal life, because their correspondence, however firmly established, is established with that hich shall pass away.
'With all due deference to Mr. Drum-

d, is it true that the dog, who loves risquiet and unhappiness, my gladness causes his exuberance to overflow, has only correspondence with that portion of my being which shall pass away? Is it only the tongue and lips with which he enters into sympathy, or with the spirit speaking through them? Is it only the caress of my hand which fills him with beatitude, or is and which fills him with beatitude, or is it the knowledge that the caress means affection? He does not communicate in words to me, but his actions plainly indicate that his spirit is in correspondence with my spirit. This it is which makes the companionship of any worth to either of us."

AT THE THEATERS.

"The Dazzler" will be seen tonight and Thursday at matinee and night at the

Grand. This is the eighth year of this phenome nally successful farce and it has made barrels of money for Cosgrove and Grant, its owners. From year to year new faces, songs and dances and up to date features have been added, making it practically a new comedy each season. The company this season is said to be the best that has yet presented the laughable skit and nothing remains of the "Old Dazzler" but the Miss Ida Rogers will assume the role of

Kitty Starlight, while Will West will be seen as the eccentric tramp. Boulden & Griffin will present the latest thing out in a musical act and many other new and pleasing specialties are promised.

The Woodward-Warren company will be the attraction all next week at the Columbia theater. Guy Woodward has always had the best repertoire company ever seen in Atlanta. For this engagement Mr. Woodward will have a company of twenty peo-ple and the performances will be made con-tinuous by introducing specialties between

the acts.

Ladies will be admitted free Monday night if accompanied by a person holding a paid 30 cents ticket.

Matinces will be given on Tuesday, Thursdya and Saturday afternoons. Social as well as musical circles will no

doubt be delighted to learn that the everwelcome comic opera company, "The Bostonians," has been secured for an early appearance here at the Grand.

For ten years "The Bostonians" have held the enviable record of maintaining first position in the comic opera world and heralded with achieving another success in a new opera their advent here will doubt be eagerly looked for.

The repertoire for the present tour includes the comic opera by Victor Herbert entitled "The Serenade," and music lovers are familiar with the furore this opera has created elsewhere.

ANNUAL OFFICERS ELECTED

National Banks Held Their Annual Meetings Yesterday.

OLD OFFICERS ARE RE-ELECTED

Mr. Hugh T. Inman Becomes a Director in Atlanta National-Teller Kennedy Is Promoted.

The directors of the Atlanta National bank met yesterday at 12 o'clock. The re-port of President James Swann, which showed a splendid condition of affairs, was read, after which the board directed that the regular semi-annual dividend of 10 per cent be paid the stockholders. The board of directors was then elected. It is composed of James Swann, Paul Romare, A. E. Thornton, F. E. Block, S. M. Inman, H. T. Inman and Charles E. Currier. Mr. H. T. Inman was the only new director elected. He succeeds W. D. Grant, resigned.

The officers of the bank were elected, and are as follows: James Swann, president; Paul Romare, vice president; C. E. Currier, cashier; B. O. Kennedy, assistant cashier. Mr. B. O. Kennedy has been an employed of the bank for twelve years. The promotion was a surprise to him, and one that greatly pleased his co-workers in the bank. Since his connection with the company has has been faithful, conservative and reliable in handling the affairs of the concern. He entered the bank as individual ledger keeper, and was soon made receiving teller, and yesterday was elected assistant cashier

The Third National Bank.

A very harmonious meeting was held yes-terday at 3 o'clock by the directors of the Third National bank. The report of President Frank Hawkins was read and received. It showed that the bank has \$650,000 in deposits and \$30,703.60 in surplus and undivided

The board of directors was then elected. It is composed of Frank Hawkins, H. M. Atkinson, J. C. Payne, J. W. Grant, H. Y. McCord and M. A. Fall. The officers of the bank were all re-eleded. WENDLING FRIDAY NIGHT.

The Orator Will Deliver a Lecture on "Stonewall Jackson."

The sale of seats for Mr. George R. Wendling's lecture on "Stonewall Jackson" opens this morning at the Grand. The lecture will be delivered Fixing evening. This is the fifth entertainment in the course of the Atlanta Lecture Association. On account of so many members being On account of so many members being engaged in business which detained them at their offices at night during the holidays, there has been a longer interval than usual since the last lecture. From now on they will come at intervals of about two weeks. Mr. Wendling is a remarkable orator. The Detroit Free Press said of one of his ectures:

He stands at the very head of the popular lecturers of the country. One who has heard all of the eloquent men of the day wrote of Mr. Wendling thus:

"At a time when many are affirming that books and morning papers have been for years destroying oratory, as though to mock these generalizers, and to cheer up the public heart, three great new orators make a sudden appearance—Ingersoil. Cook and Wendling. They are a remarkable group, even aside from the fact that they have not yet passed into the magnifying atmosphere of the past.

"These three mighty talkers show the character of the times, for the rights of man, which awakened all old eloquence, having been secured, these tongues are driven toward other themes, and following the genius of the age they all build up their orations on morals and religion.

"Ingersoil reveals the most wit and acuteness, Cook the most learning, Wendling the most grace and dignity and the most reason.

"Great and powerful as Ingersoil and

reason.

"Great and powerful as Ingersoll and Cook are, it is a great pleasure to turn from both and hear Wendling. I speak only for myself. Wendling adds to great subjects a pure and clear style. His language, his logic, his imagination, his enunciation, his method, are all of the old Everett and Channing school."

MRS. ADAMS MAY GET DAMAGES. Judge Newman's Decision in the Case Has Been Reversed.

Mrs. Adams may yet receive damage: from the Southern railway for the lives o her two little children, who were crushed to death on Rhodes street trestle two years ago. circuit court of appeals at New Orleans has reversed the ruling of Judge W. T. Newman in the suit for damages

which Mrs. Adams brought against road, which ruling was in favor of the railroad. It will be remembered that Judge Newman sustained a demurrer which the railroad set up against the suit for damagain, and Mrs. Adams will have anothe chance to get judgment against the road.

About two years ago Nora Kate Adams and George W. Adams, Mrs. Adams's little children, were returning from Ma-rietta street school to their home on Mangum street. On their way they started across the Southern railway trestle over Rhodes street. When about half-way across a loose oil tank car rolled down one of the tracks and ran over the two school children. Both were crushed to death.

Mrs. Adams brought suit in the city court, but the case was transferred to the United States court. The railroad instituted a demurrer proceeding, claiming that the children were trespassing on the railroad's property when they were killed. This demurrer was sustained by Judge Newman. Judge J. T. Pendleton, attorney for Mrs. Adams, appealed the case to the United States circuit court, where it has been pending for some time. News was received yesterday that the circuit court had reversed the decision of Judge New

Stock Cannot Be Driven Loose in the Residence Streets-Recorder Cites the Law.

A case of fast driving of loose mules through the streets was investigated by the recorder yesterday afternoon and there were some interesting developments which had a sequel, still more interesting, in the shape of an order issued by

J. G. Wilson, a white stock drover, and Will Scoffeld, Joe Perkins and Oscar Hancock, three negro drivers, were the parties on trial.

The main witness against the defendants was C. I. Branan, who testified that he was on Broad street near Alabama Monday evening at 6 o'clock when he saw a drove of mules dashing through the streets at a very rapid speed. He was talking at the time to J. T. Jones, who was seated in a buggy. The drove of mules caused a horse to run away and the runaway struck Mr. Jones's vehicle, throwing him out and breaking his buggy and injuring him. He stopped Mr. Jones's horse, but the runaway dashed up the street, and away went mules, drivers, runaway and all. Mr. Branan's account of the exciting scene was very vivid.

Mr. Jones was present, a little the worse for the accident, and corroborated Mr. Branan's testimony.

Mr. Wilson stated that he ordered the negroes to drive the mules through the streets and he did not believe he had violated any law.

The recorder caught up his new city code and began a long search for the 'law in the case." Finally he made this announcement:

nouncement:

"There are three or four ordinances covering the driving of loose stock through the streets of Atlanta. Under the ordinances loose mules can be driven through the business center of the city except between the hours of 8 and 9 a. m. and 2 and 3 p. m. And there is an ordinance, 403 of the new part of the code, which says expressly that at no time of the day or night shall loose stock be driven through the residence streets. In this particular case I cannot see wherein these men have the residence streets. In this particular case I cannot see wherein these men have violated the law. If the city permits the driving of loose stock through the streets I cannot impose fines even if serious damage occurs. The drivers go as slow, I suppose, as they can, but it is not always possible for them to go slow, for the mule has a way of becoming unruly. Why, if a mule should, under such circumstances, kill a person I could not impose a fine for it. The city permits it and I am only here to enforce the wishes of the city. I will dismiss all of the cases."

Mr. Jones wanted to know if he had any redress. The recorder quickly replied: "Oh, yes; you can sue, and I haven't a doubt but what you could recover damages. If these drovers will go through the streets they must take the consequences in a civil suit, for they assume the risk when they do so." After the trial of the cases the atten-

tion of the chief of police was called to the fact that the recorder had announced from the bench that under the city ordinances no loose mules could be driven on the residence streets at any hour, and the chief was further informed that mules were frequently driven on numerous thor-Chief Manly immediately issued an order,

Assault to Murder.

Alonzo Finch, a well-known negro of this city, son of William Finch, a tailor, was bound over to the superior court by Justice Landrum yesterday afternoon on the charge of assault with intent to murder. The prosecutor in the case, J. J. Kelly, who has a fruit stand on Edgewood avenue, testified that Finch and another negro, Bob Kent, were passing his store and made a remark which aroused his ire, and he stepped on the sidewalk to resent it. a remark which aroused his ire, and he stepped on the sidewalk to resent it.

One of them made for him wish a knife, but did no more damage than cut him on the arm. Finch agreed with this statement, but said that the remark had not been intended for Kelly, as he and Kent were paying no attention to the fruit man. He said that he had not done the cutting, but that Kent had done it in self-defense. There Is No Beason Why You Should if You Follow the Advice Given

"Indigestion is the curse of this country," says a New York medical journal in a recent editorial. "Both men and women suffer from this abstressing complaint, and it causes a tremendous amount

of misery."
This is all very true, but there is no reason why any man or woman should suffer from indigestion when there is a ready means of preventing it. Thousands of people have discovered a sure cure and some of them have given the public the benefit of their experience.

Mrs. E. Tarlton, 345 Park avenue, Cincinnati, says: "I had dyspepsia for fifteen years and was entirely cured by taking Duffy's pure mast whiskey. I had tried almost everything and know that this whiskey cures where all others fail."
W. F. Anderson, 617 W. Indiana street

W. F. Anderson, 617 W. Indiana street, Chicago, says: "I used Duffy's pure malt whiskey for indigestion and dyspepsia. My stomach is now in better condition than it has been for years past."

These are only two cases selected from thousands of others but they are sufficient to prove that dyspepsia and indigestion can be always avoided by the regular use of Duffy's pure malt. It will not only keep the digestive organs in perfect condition but give tone and energy to every part of the body. Make sure that you get no inferior imitation.
